Include proposal to link digital currencies on the BRICS agenda, says RBI

Reuters

MUMBAI/NEW DELHI

The Reserve Bank of India (RBI) has recommended to the Centre that a proposal connecting the central bank digital currencies (CBDCs) of BRICS countries be included on the agenda for the 2026 summit of the grouping, two sources have said. They requested anonymity as they were not authorised to speak publicly.

The proposal seeks to make cross-border payments easier, in a move that could reduce reliance on the U.S. dollar as geopolitical tensions rise. The RBI's recommendation builds on a 2025 declaration at the BRICS summit in Brazil which pushed for interoperability between members' payment systems to make cross-border transactions more efficient.

The RBI has publicly expressed interest in linking India's digital rupee with other nations' CBDCs to expedite cross-border transactions and bolster its currency's global usage. It has, however, said its efforts to promote the rupee's global use are not aimed at promoting de-dollarisation.

India will host the next BRICS summit later this year. If the RBI's recommendation is accepted, a proposal to link the digital currencies of BRICS members would be put forward for the first time. The initiative could irritate the U.S., which has warned against any moves to bypass the dollar. U.S. President Do-

Ease of payment

If the proposal is accepted, a plan to link digital currencies will be put forward at the 2026 BRICS summit in India

- The move could reduce reliance on the U.S. dollar as geopolitical tensions rise
- While none of the BRICS members have fully launched their digital currencies, all five main members have been running pilot projects
- India's digital currency - e-rupee - has attracted a total of 7 million retail users since its launch in December 2022

nald Trump has previously said the BRICS alliance is "anti-American" and he threatened to impose tariffs on its members.

While none of the BRICS members have fully launched their digital currencies, all five main members have been running pilot projects.

India's digital currency has attracted a total of 7 million retail users since its launch in December 2022, while China has pledged to boost the international use of the digital yuan.

The RBI has encouraged the adoption of the e-rupee by enabling offline payments, providing programmability for government subsidy transfers and allowing fintech firms to offer digital currency wallets.

The RBI and the central bank of Brazil did not respond to emails seeking comment. The People's Bank of China said it had no information; the South African and Russian central banks declined to comment.

For the BRICS digital currency linkages to be successful, elements like

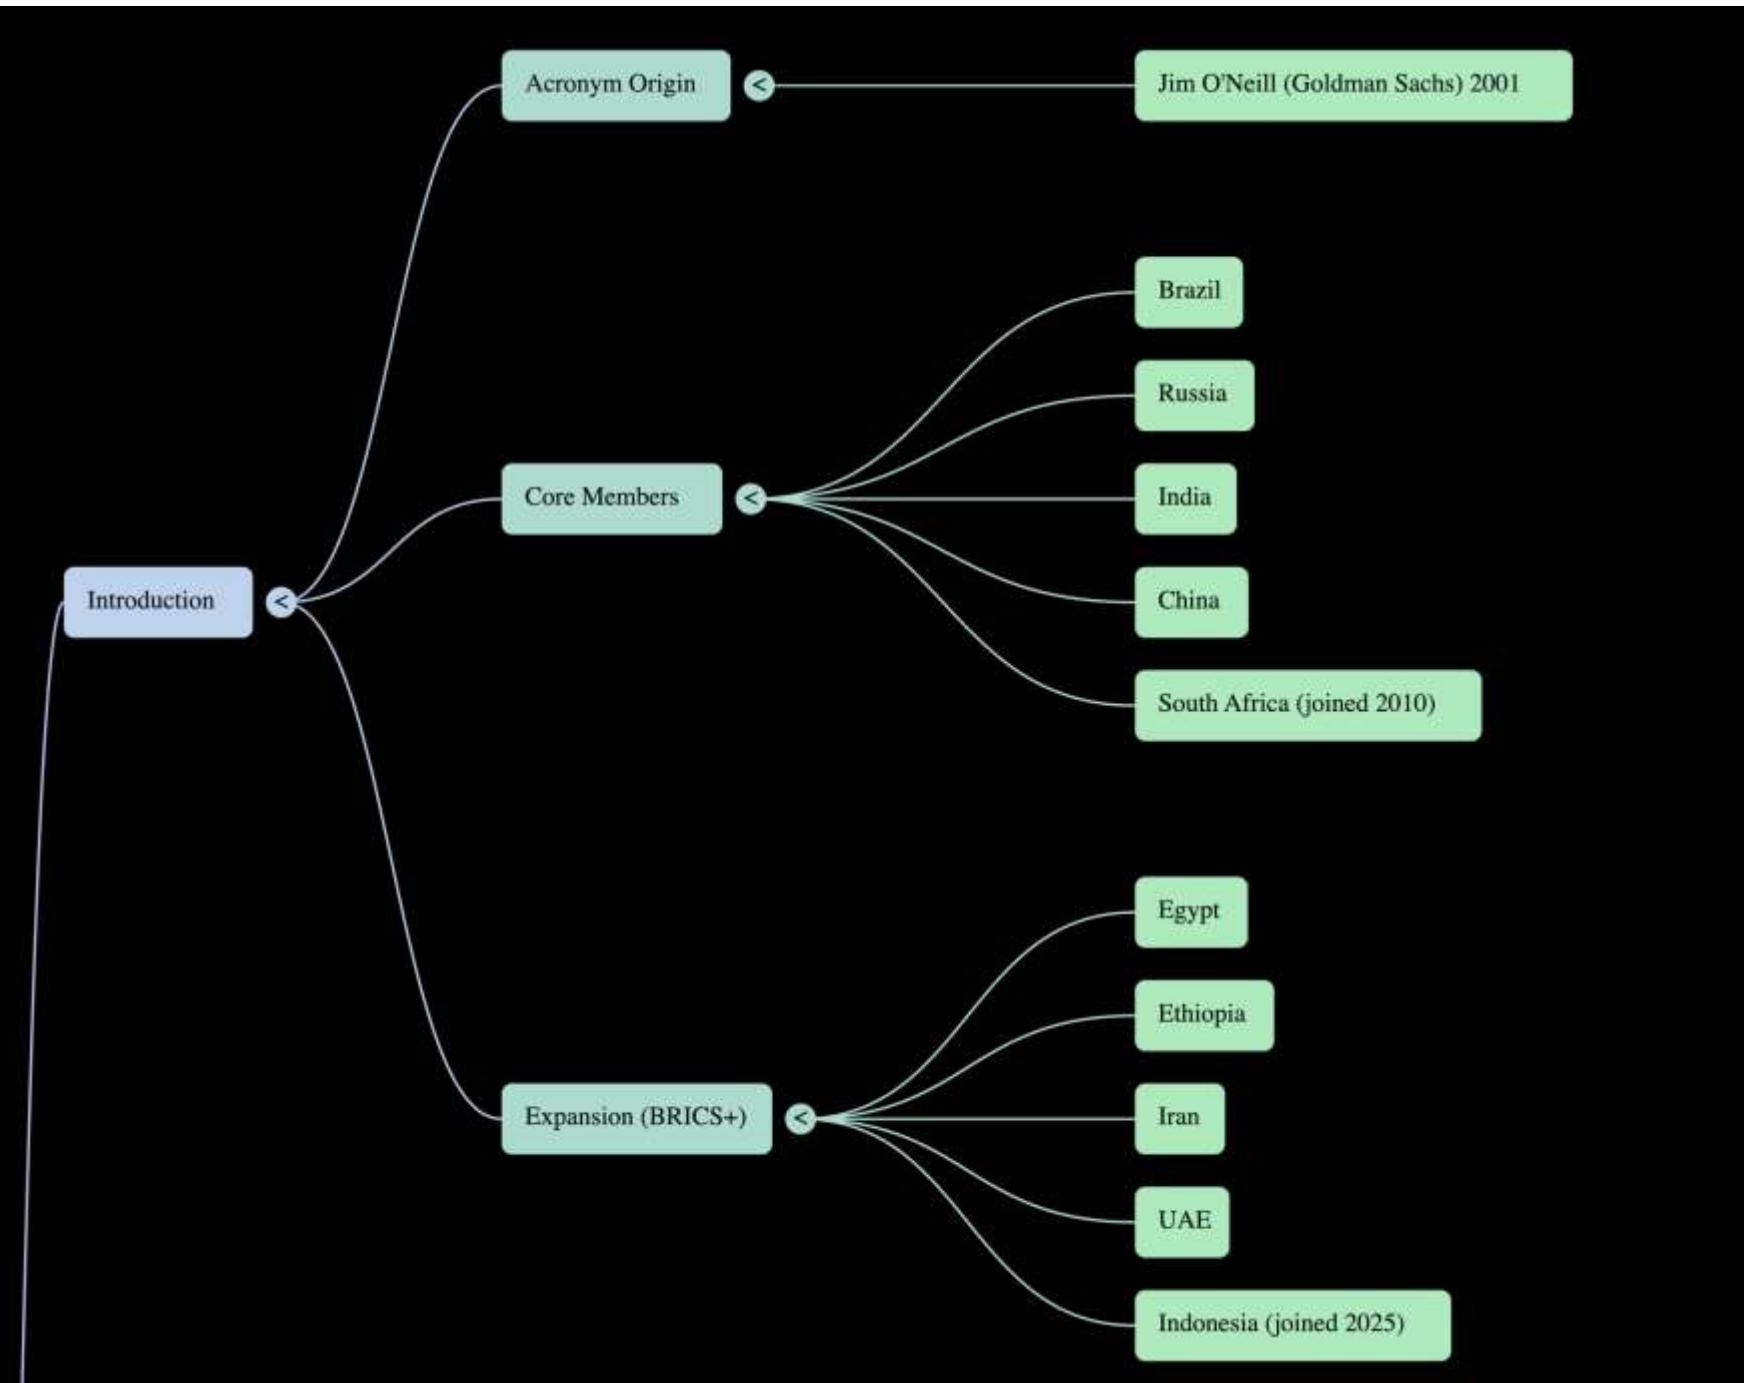

interoperable technology, governance rules and ways to settle imbalanced trade volumes would be among the discussion topics, one of the sources said.

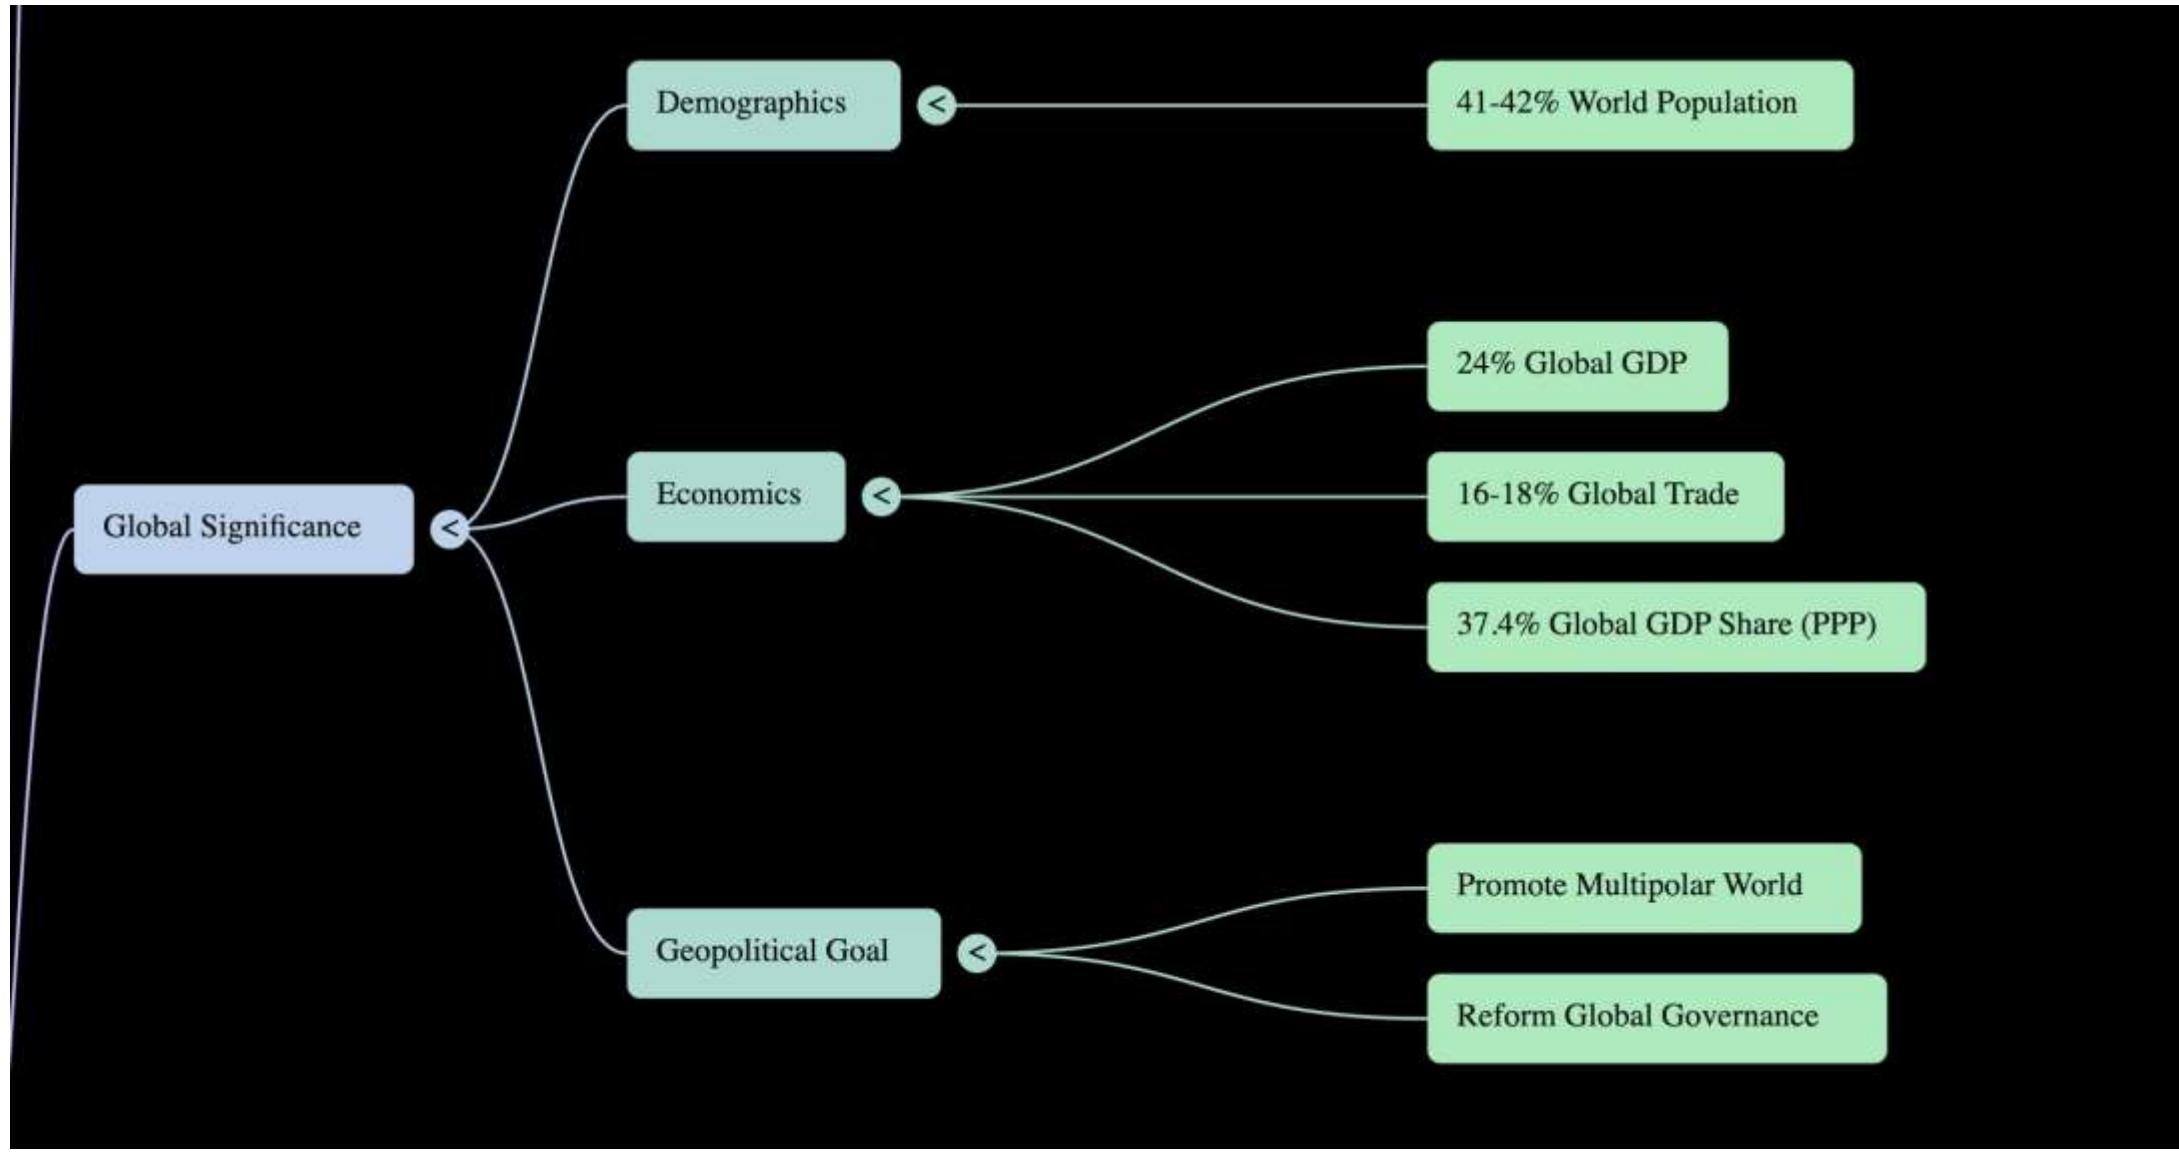

The source cautioned that hesitation among members to adopt technological platforms from other countries could delay work on the proposal and concrete progress would require consensus on tech and regulation.

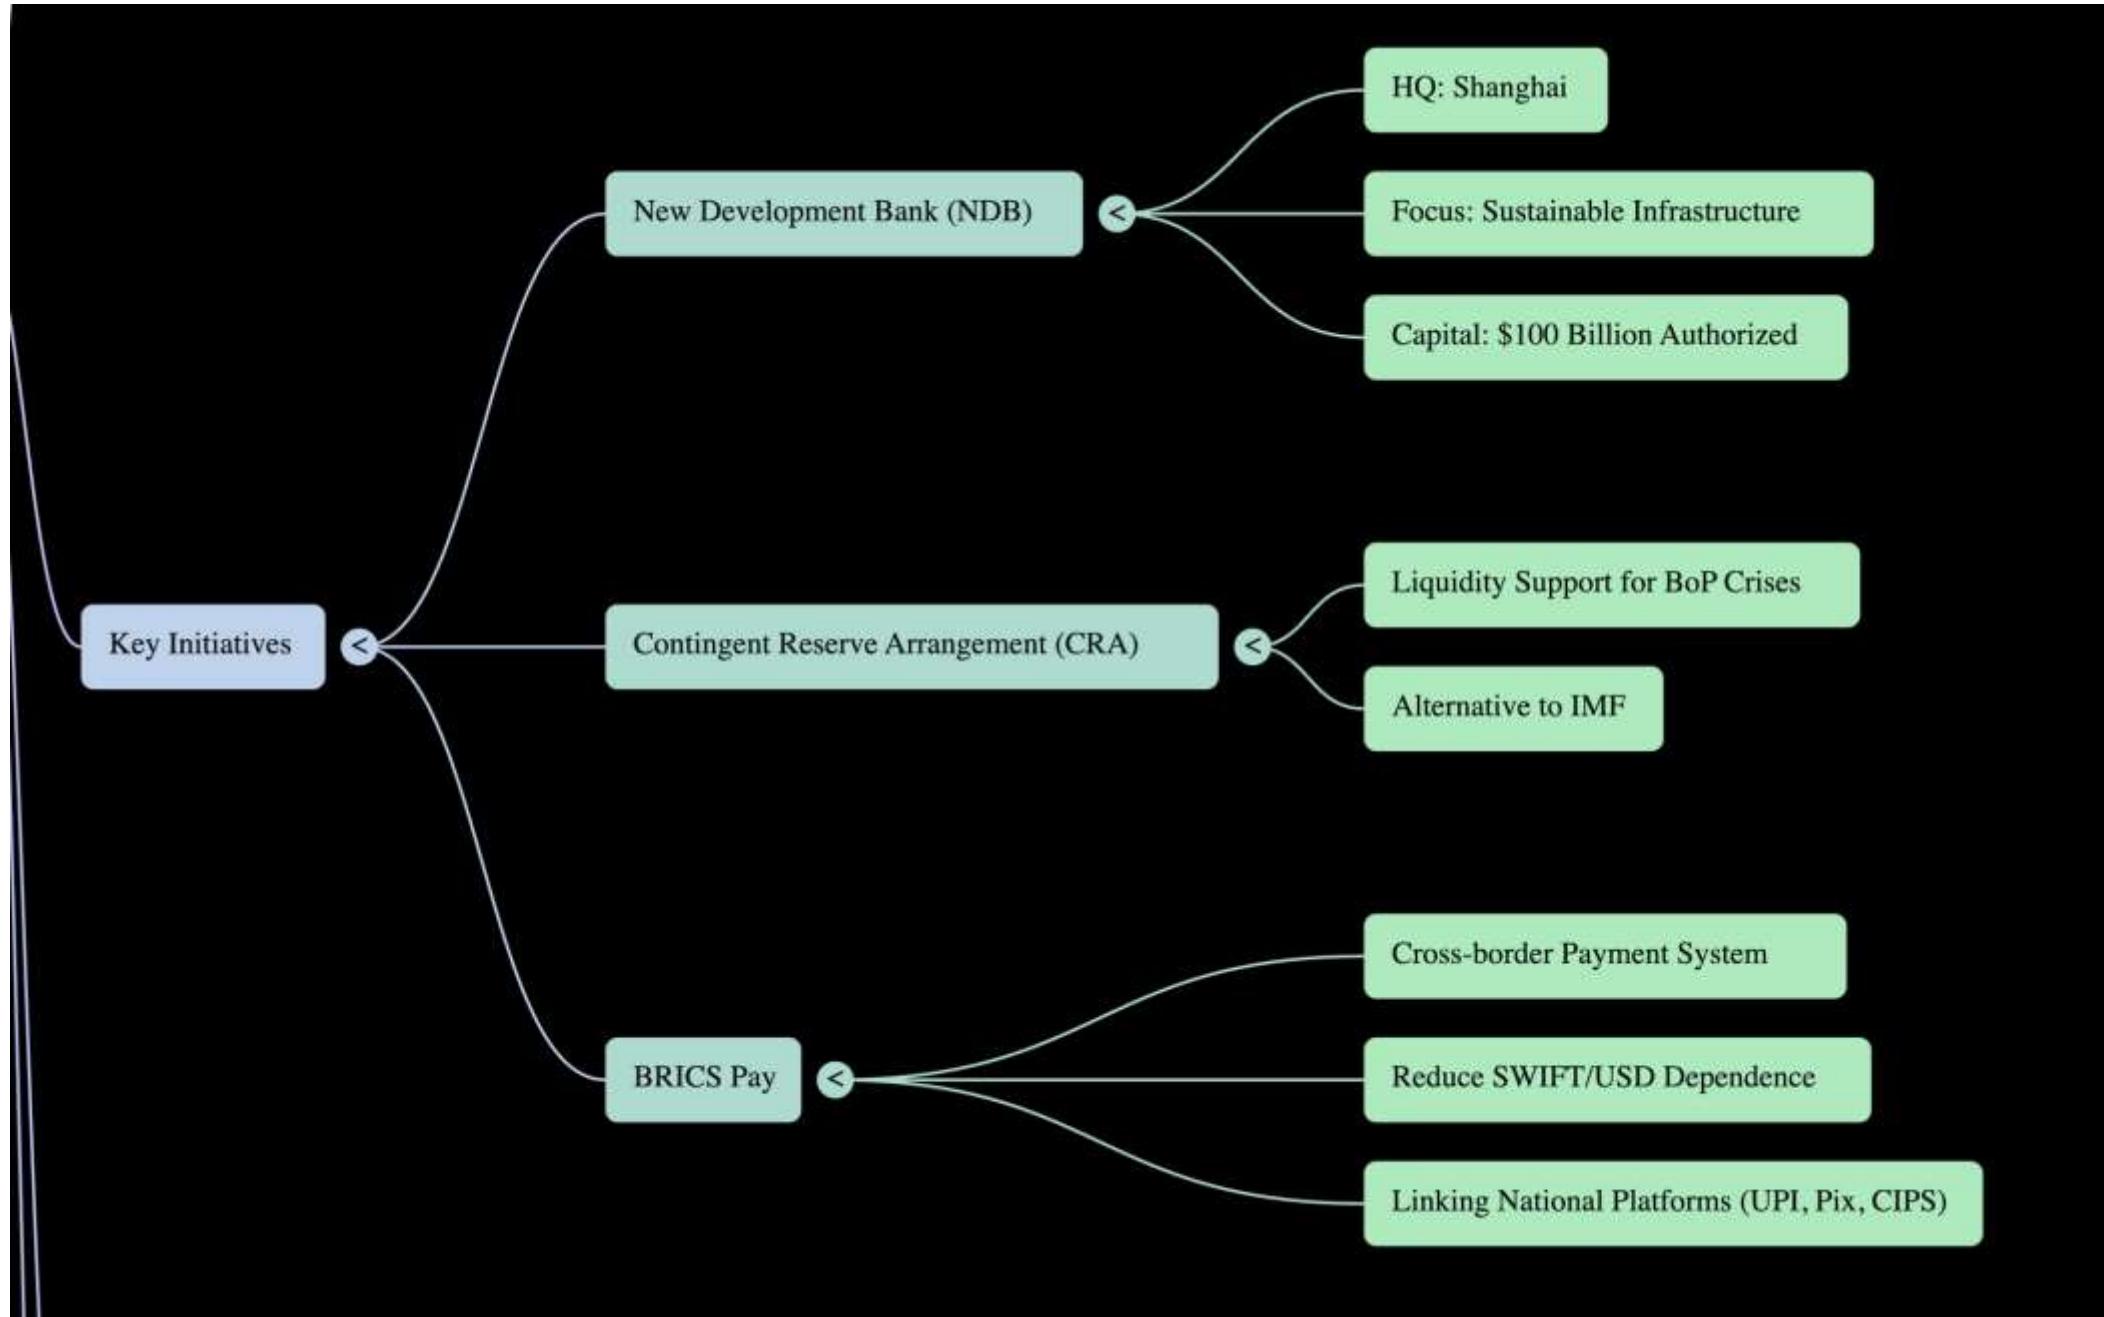

One idea that is being explored to manage potential trade imbalances is the use of bilateral foreign exchange swap arrangements between central banks, both sources said.

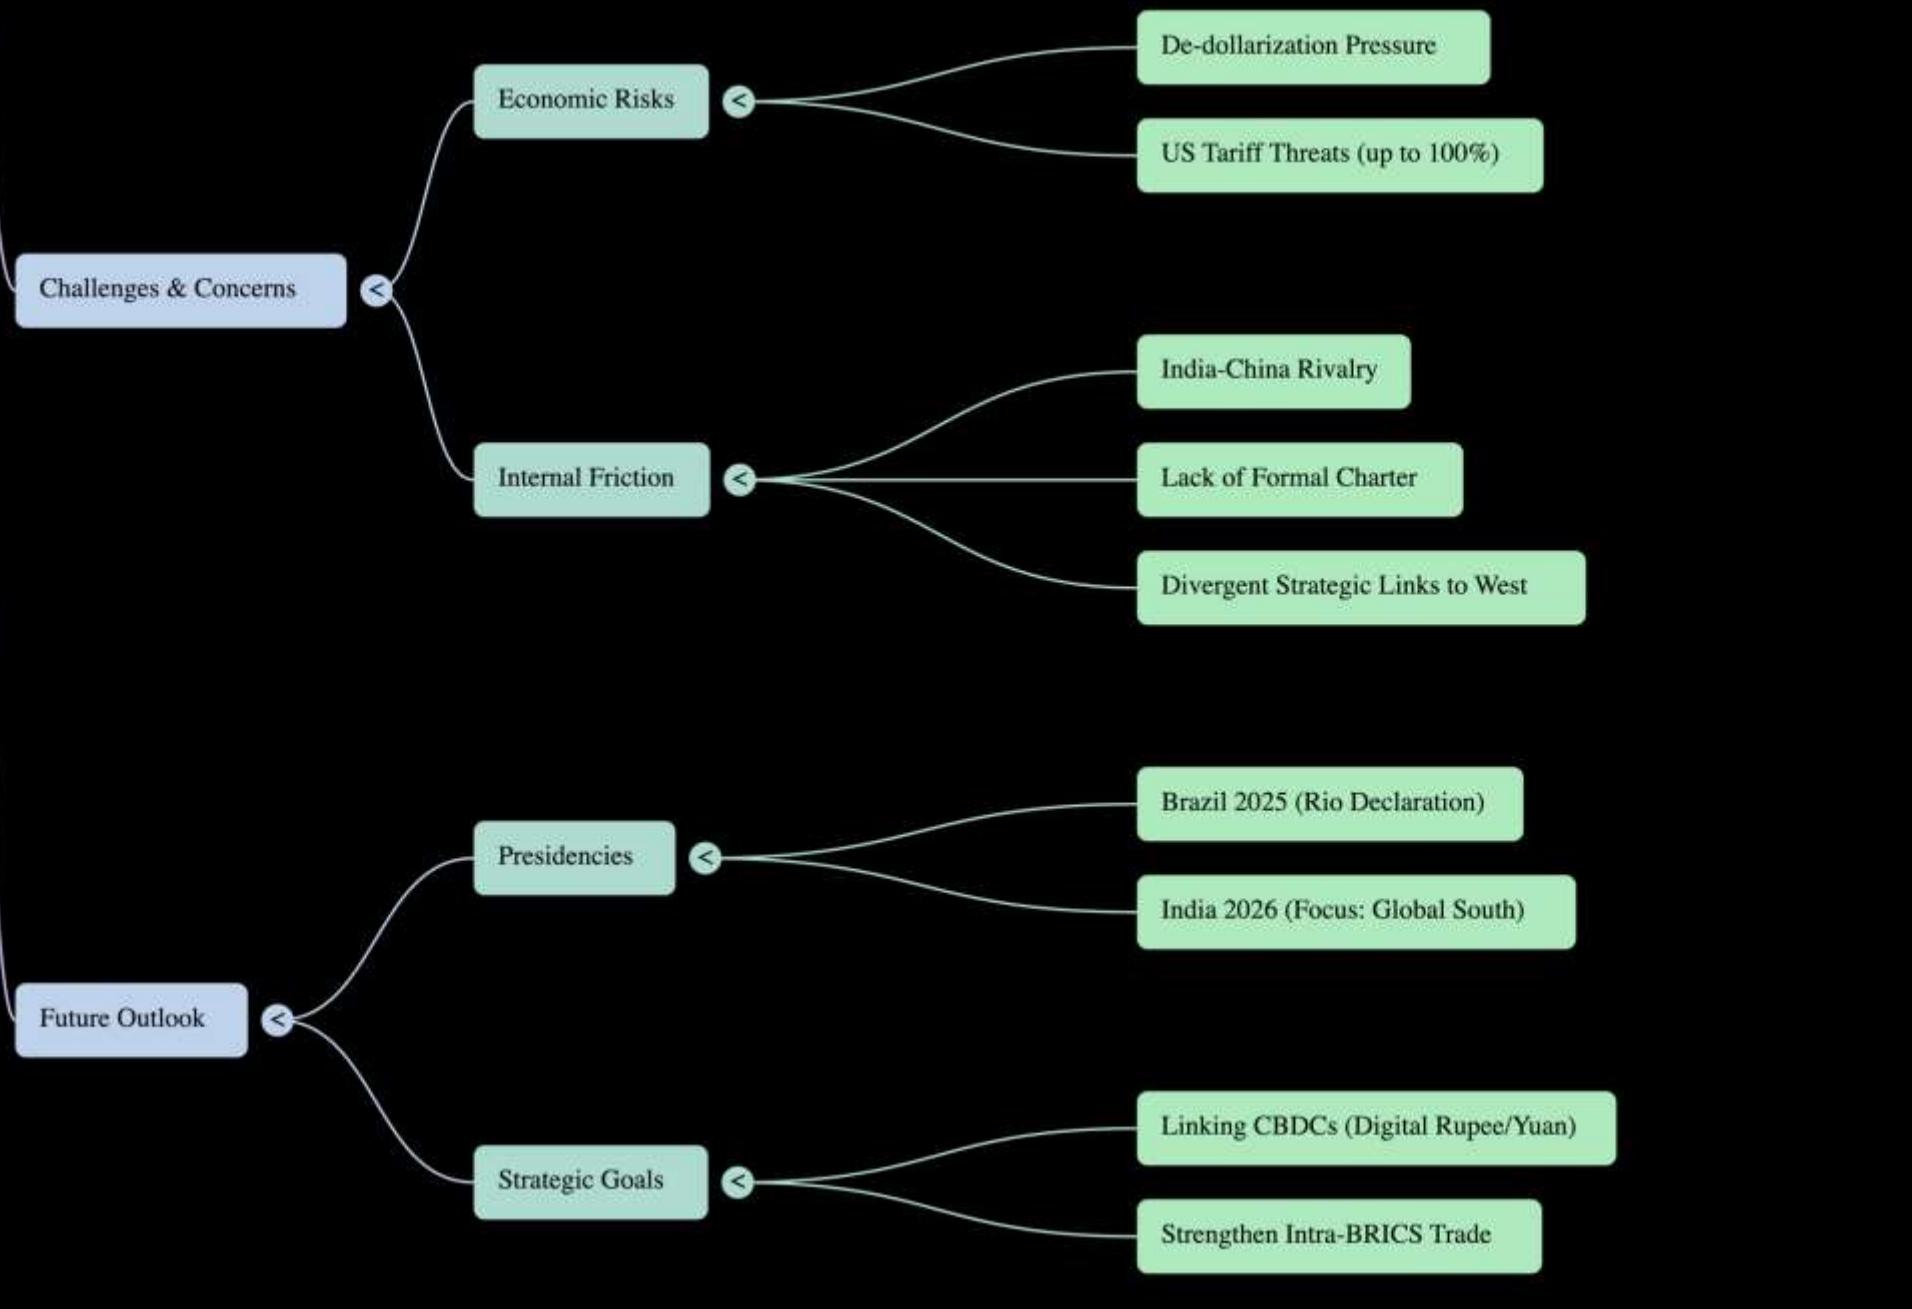

Previous attempts by Russia and Indian governments to conduct more trade in their local currencies hit roadblocks.

Russia accumulated large balances of the Indian rupee for which it found limited use, prompting India's central bank to permit the investment of such balances in local bonds. Weekly or monthly settlements for transactions are being proposed to be made via the swaps, the second source said.

1. What RBI recommended / RBI की सिफारिश क्या है

- Reuters report says the Reserve Bank of India (RBI) has recommended to the Centre that a proposal to connect BRICS countries' central bank digital currencies (CBDCs) be included on the agenda of the 2026 BRICS summit.

रॉयटर्स के अनुसार RBI ने केन्द्र सरकार को सुझाव दिया है कि **BRICS** देशों की CBDC को आपस में जोड़ने वाला प्रस्ताव **2026 BRICS शिखर सम्मेलन** के एजेंडा में रखा जाए।

2. Why this is being pushed / इसका उद्देश्य क्या है

- The proposal aims to make **cross-border payments easier**, and could reduce reliance on the U.S. **dollar** as geopolitical tensions rise.

लक्ष्य सीमा-पार भुगतान को आसान बनाना है; भू-राजनीतिक तनाव बढ़ने पर अमेरिकी डॉलर पर निर्भरता घटाने में भी मदद हो सकती है।

3. Link to earlier BRICS decision / BRICS के पहले के फैसले से कड़ी

- RBI's recommendation builds on a **2025 BRICS declaration (Brazil summit)** that pushed for **interoperability** between members' payment systems to make cross-border transactions more efficient.

यह सिफारिश **2025 BRICS घोषणा (ब्राज़ील शिखर सम्मेलन)** से जुड़ी है, जिसमें सदस्य देशों की भुगतान प्रणालियों के बीच **interoperability** (आपसी संगतता) पर जोर था।

4. India's stance: not "de-dollarisation" / भारत का रुख: "डी-डॉलराइज़ेशन" नहीं

- RBI said its efforts to promote the rupee's global use are **not aimed at de-dollarisation**.

RBI ने कहा कि रुपये के वैश्विक उपयोग को बढ़ाने की कोशिशों का लक्ष्य डी-डॉलराइज़ेशन नहीं है।

5. Status of digital currencies in BRICS / BRICS में डिजिटल करेंसी की स्थिति

- The report notes that **none of the BRICS members has fully launched** their digital currencies, but the **five main members** have been running **pilot projects**.

रिपोर्ट के अनुसार BRICS के किसी भी सदस्य ने पूरी तरह डिजिटल करेंसी लॉन्च नहीं की है, लेकिन पाँच मुख्य सदस्य पायलट प्रोजेक्ट चला रहे हैं।

6. India's e-rupee update / भारत की e-rupee स्थिति

- India's digital currency **e-rupee** has attracted **about 7 million retail users** since its launch in **December 2022**.

भारत की डिजिटल करेंसी **e-rupee** ने दिसंबर 2022 में लॉन्च के बाद से लगभग **70 लाख रिटेल यूज़र्स** जोड़े हैं।

7. China & RBI feature-push / चीन और RBI की रणनीति

- China has pledged to boost international use of the **digital yuan**; RBI has encouraged e-rupee adoption via **offline payments, programmability for government subsidy transfers**, and enabling fintech firms to offer **digital currency wallets**.

चीन ने डिजिटल युआन के अंतरराष्ट्रीय उपयोग को बढ़ाने की बात कही है; RBI ने ऑफलाइन पेमेंट, सरकारी सब्सिडी ट्रांसफर हेतु **programmability**, और फिनटेक के जरिए डिजिटल करेंसी वॉलेट जैसी सुविधाओं से e-rupee को बढ़ावा दिया है।

Paratrooper dies as search operations resume in Kishtwar

JAMMU

A paratrooper, who was severely injured in a gunfight with terrorists, succumbed to his injuries on Monday, while the ongoing search operations in Jammu recovered a suspected terror hideout packed with weapons and ammunition. Kishtwar district, officials said.

The operation, which was launched in a stormer village near Marasthal Singhpora in the Charois belt on Sunday, had been suspended after it left eight soldiers injured, primarily due to a sudden grenade attack from the hiding terrorists.

The operation, which was suspended late on Sunday night in the challenging terrain marked by thick vegetation and rocks, was limiting visibility and movement, officials said.

The Indian Army's 14th Parachute Knight Corps said "Operation Trishul-P" continues in the Charois belt and would be further tightened with search operations expanded. Troops, along with police and CRPF, remain deployed to dominate the area.

Multiple teams of the army, police, and paramilitary forces, supported by drones and sniffer dogs, are combing the area while maintaining a strict curfew to ensure that the terrorists are not able to escape the officials said.

The search teams have busted a terrorist hideout in the Charois area during the ongoing operation.

"We honour his indomitable courage, valour and selfless sacrifice. We pay our respects to the Special Forces who made the supreme sacrifice while gallantly executing their duty to the nation of making disparaging remarks about army officer and his family," he said.

Mr. Qureshi had briefed the media during Operation Trishul-P that no fighter had taken serious exception against Mr. Shah, adding that a special investigation team (SIT) to probe the case against him.

"We honour his indomitable courage, valour and selfless sacrifice. We pay our respects to the Special Forces who made the supreme sacrifice while gallantly executing their duty to the nation of making disparaging remarks about army officer and his family," he said.

The request for prosecution was made to the State government in August.

"We are in January 2020 now," Chief Justice of India Justice Ranjan Gogoi said in a special hearing of the trial judge branch of Justice Dipak Misra, appearing in a separate post on X.

Responsibilities to be assigned to ex-Agniveers yet to be decided: CISF D-G

Vikas Singh
NEW DELHI

Central Industrial Security Force (CISF) Director-General Prawer Ranjan said on Monday that an internal committee had been formed to determine the responsibility of the force to train Agniveers who were absorbed into the force.

The officer said they were awaiting instructions from the Union Home Ministry on the percentage of Agniveers to be retained and sent to the force to be followed, whether horizontal or vertical.

The government launched the Agniveers recruitment scheme in June 2019, under which candidates from the Indian Army, the Navy, and the Air Force as Agniveers for three years. Agniveers are retained for four years, while the remaining 75% exit the service. The Home Ministry announced that 10% of vacancies in the force would be filled by Agniveers who would have completed four years of ser-

vice. The Home Ministry is to exit the services in the coming months. The Hindu earlier reported that the force had decided to enhance reservation for former Agniveers in the Group C posts of the force.

Mr. Ranjan said the Ministry had decided to bring Agniveers into the force. "We are looking into the recruitment protocol. They can be absorbed into the force as Agniveers.

Congress workers stage a protest in Patna against the Bihar government for the release of the accused in investigation into the death of a National Eligibility Test (NEET) aspirant in the State capital.

A large group of Congress workers, led by Bihar Congress in-charge Kishore Alavari, and the party's Lok Sabha member, Mr. Ram, gathered near the Tari Crossing, holding placards and shouting slogans against Chief Minister Nitish Kumar and the government. They also burnt an effigy of the Chief Minister.

The Congress leaders alleged that the government was not preparing for competitive exams and was not under the NEET scheme of the National Institute of Higher Education (NIHE) run in Bihar. They claimed that the government was not addressing the people responsible for the heinous crime in the girl's home and order to arrest the hotel operators.

The hotel administration and doctors attempted to destroy evidence and the investigating officer has not been summoned. The court has issued a non-bailable warrant for the arrest of the hotel operators.

The 16-year-old girl from Bihar's Bhagalpur district was found in an unconscious state on January 6 in the girl's hotel in Patna. Mr. Alavari said the girl was brought to the hospital on Sunday night.

Mr. Alavari asked the court to direct the police to arrest the accused in the case. "The girl is not safe for our women and children. The government is not doing its duty. The State capital Patna is at the mercy of God," Mr. Alavari said.

SC gives two-week deadline for sanction to prosecute Vijay Shah

The Hindu Bureau
NEW DELHI

The Supreme Court on Monday gave the Madras High Court two weeks to decide on its request for sanction to prosecute State Minister Kuresh Ali for his role in making disparaging remarks about army officers in the Singrauli area during the ongoing Operation Trishul-P.

The request for prosecution was made to the State government in August.

"We are in January 2020 now," Chief Justice of India Justice Ranjan Gogoi said in a special hearing of Justice Dipak Misra, appearing in a separate post on X.

The court said the State must file a status report before January 20.

In July 2019, the Supreme Court had quashed the nature of the "online speech" made by Mr. Shah for his remarks against Col. Qureshi.

The top court had said the Minister was "testing the court's patience."

"What do you mean by an apology like this? He has to take responsibility for that (apology). Chief Justice Ranjan Gogoi said.

"We are doing our best to get a public apology. Where is it on record?"

The court had asked Mr. Shah to file a status report by January 20.

India signs Letter of Intent to elevate defence ties with UAE

The signing of the pact comes amid increasing Saudi-Pakistan defence cooperation in the Arabian peninsula and especially in Yemen; the two sides also ink energy deal during UAE President's visit

Kallol Bhattachjee

NEW DELHI

Against the backdrop of growing military tension in the Gulf region, the United Arab Emirates and India signed a "Letter of Intent for a Bilateral Strategic Defence Partnership" on Monday. The Letter of Intent was sealed during the three-hour visit by the President of the United Arab Emirates, Sheikh Mohamed bin Zayed Al Nahyan, when the two sides set a goal of doubling bilateral trade to \$200 billion by 2032.

Prime Minister Narendra Modi received the UAE leader at the Palam airport and the two leaders discussed, among other issues, the situation in Gaza where U.S. President Donald Trump's peace plan will be tested in the coming weeks as well as the protests in Iran. In a press briefing after the departure of the dignitaries, Foreign Secretary Vikram Misri said

PM Narendra Modi with UAE President Sheikh Mohamed bin Zayed Al Nahyan during a meeting, at the PM's residence in New Delhi. PTI

the two leaders also discussed the situation in Yemen over which Saudi Arabia's relation with the UAE has nosedived.

In response to a question on whether the India-UAE strategic defence partnership could drag India into a future conflict scenario in the Gulf region, Mr. Misri said the Letter of Intent was aimed at the "work on concluding a framework agreement for Strategic Defence Partner-

ship". "So I would really characterise it as a natural evolution from the already considerable defence cooperation between the two countries and not necessarily a response to any specific event that may have taken place in the region or of any intent to get involved in a hypothetical future scenario in the region," said Mr. Misri.

There has been greater involvement of Pakistani military in safeguarding

Saudi defence and security interests in the Arabian peninsula and especially in Yemen. The Saudi-Pakistan defence cooperation has intensified since the two countries signed a mutual defence agreement on September 17, 2025.

The Saudi-Pakistan military alliance has been active in the Yemen theatre and that has increased pressure on the UAE.

During the brief visit, the two sides also signed an energy deal involving the Hindustan Petroleum Company Ltd (HPCL) and Abu Dhabi National Oil Company Gas (ADNOC) that will allow purchase of 0.5 Million Metric Tonnes Per Annum (MMPTA) LNG by the HPCL from ADNOC over 10 years starting from 2028.

Another Letter of Intent was signed between the Indian National Space Promotion and Authorisation Centre and the Space Agency of the UAE for the development of space industry in the UAE.

1. What happened / क्या हुआ

- India and the United Arab Emirates signed a **Letter of Intent (LoI)** to work towards a **Bilateral Strategic Defence Partnership**.

भारत और संयुक्त अरब अमीरात (UAE) ने **Letter of Intent (LoI)** पर हस्ताक्षर किए, ताकि **Bilateral Strategic Defence Partnership** की दिशा में काम किया जा सके।

2. Context / पृष्ठभूमि

- The signing is seen against **rising military tension in the Gulf region** and **increasing Saudi–Pakistan defence cooperation**, especially linked to the Yemen theatre.

यह कदम खाड़ी क्षेत्र में बढ़ते सैन्य तनाव और सऊदी–पाकिस्तान रक्षा सहयोग (खासकर यमन संदर्भ) की पृष्ठभूमि में देखा जा रहा है।

3. Visit details / यात्रा का संदर्भ

- The LoI was sealed during UAE President **Sheikh Mohamed bin Zayed Al Nahyan's** short visit to India.

यह LoI UAE राष्ट्रपति शेख मोहम्मद बिन जायद अल नहयान की भारत यात्रा के दौरान तय हुआ।

4. Wider agenda discussed / व्यापक मुद्दे

- Leaders discussed regional developments including **Gaza** and **Iran**, and the situation around **Yemen** was also referenced in briefings.

नेताओं ने **गाज़ा** और **ईरान** सहित क्षेत्रीय घटनाक्रमों पर चर्चा की, तथा यमन की स्थिति का भी उल्लेख हुआ।

5. India's stand on defence LoI / रक्षा LoI पर भारत का पक्ष

- India's official briefing indicated the LoI is meant to build a **framework for strategic defence cooperation**, described as a **natural progression** of existing cooperation—not an intent to be drawn into future conflicts.

आधिकारिक ब्रीफिंग के अनुसार यह LoI रणनीतिक रक्षा सहयोग के फ्रेमवर्क हेतु है; इसे मौजूदा सहयोग की स्वाभाविक प्रगति बताया गया, न कि भविष्य के संघर्षों में शामिल होने का संकेत।

6. Trade goal / व्यापार लक्ष्य

A Centrist lens on 'illegal immigration'

Ihe Special Interim Revision (SIR), which omitted nearly 6.5 crore voters from the electoral rolls of nine States and three Union Territories, has triggered widespread outrage and legal disputes. The Opposition appears determined to seize that moment to renew its long-standing 'ghost voter' campaign on which its politics has exhaustively relied.

The Opposition's mistake
But it will be naive to mistake the people's anger for anger. Despite the like-minded position of India's few credibility, and discontent over its shoddy handling of the SIR, the Opposition's account, which depicts elections as fraudulently manipulated to suit the Bharatiya Janata Party (BJP) and the BJP as a tool to perfect that machination.

The overwhelming sense is that across the country, the need to remove dead, shifted, and duplicate voters. The approval for the SIR has diverted the mobilisation of emotion over the vexing question of 'illegal' immigration, which includes incendiary assertions, and inflammatory rhetoric, creating a tangle of threats to democracy and political stability, particularly electoral possibilities in the northern States.

With Prime Minister Narendra Modi said recently in poll-bound West Bengal that "even Kolkata is facing ghost voters", the Opposition echoed the telling apprehensions of a mischievous section of Bengalis. The Opposition is loath to re-examine the central issue, often deploying laconic wit to evade the question. Trinamool Congress' leader M. K. Alimullah's jibe "who wants to come to India?" is an example.

The best argument mingled with sourness — either you agree with me, or you are a bigot — has been counterproductive. Liberal parties in the world — it was the European Union's uncritical support for wide-open borders that precipitated the steady trickle

Ananda Bhakta
covers national politics, Kashmir and elections in the Hindu

of voters of the centre-left to populists, anti-immigration Party, more notably in Germany, Italy, Hungary and Poland.

The Opposition's denial of undocumented immigration in the face of evidence is a political ploy. Last November, several hundred Bangladeshi nationals were arrested by Border Security Force personnel at the Dokhingar check post in West Bengal, while allegedly attempting to return to Bangladesh. Some 100 of the 200 Bangladeshis were among the 51 people arrested in Bihar under the Khasi Act.

The Opposition sees acting on undocumented immigrants as carrying out its constitutional rights. But national security concerns are not corroboree; fulminating efforts at blocking them. Opposition leaders show proclivity to confuse illegal immigration with immigration, border security with the need for easing refugee intake, as Italy's George Melachrinos attempted with Albania. The Opposition has recently reoriented its politics to sync with public attitudes on immigration in the north. South Indians led by Muruganandam have passed a law allowing asylum seekers to be processed and refugees to be resettled in the state, one seat in the 2024 European Parliament election.

It is important to understand that whatever weight heavily on their minds of think tankers weighs on the minds of the public. It is important to remember that Indian democracy before every election bears that out. It releases the political pressure that is divided on where the threat to democracy comes from. People have to be reassured that the existing institutions and "vote cast" and more over the alleged immigrant threat. Central point is that they provide "a sense of control" and "a sense of safety" to individuals who otherwise feel powerless and unsafe.

A reason why the BJP under prime Minister Narendra Modi was able to monopolise the national discourse was because in the decade preceding 2014, the Congress

nearly jettisoned expostions of national pride — at least the anti-migrant line involving India's spiritual tradition and language — as though they impeded its secularism. That adjudged fear into the political discourse on the immigration issue.

A nuanced conversation
In June 2020, Parliament passed the Immigration and Foreigners Bill, to regulate the entry and stay of foreigners in a more stringent, time-bound manner; the Opposition stayed a watchful. A political conversation has been

building on immigration, reflecting the public's ambivalence, multifaceted nature, delineating both the challenges and the benefits it brings along. It must focus on the need to maintain authorisations, spending versus contributions, and ties with the state, with the need for easing

refugee intake, as Italy's George Melachrinos attempted with Albania.

As of 2025, Wikipedia features articles in 342 languages. However, much of the content in other languages may be generated by automated bots translating English entries. Cebuano – a language spoken in the southern Philippines – is a prime example; the vast majority of the millions of articles in Cebuano was created by bots.

Wikipedia averages 508 million daily views, with nearly half of that site traffic directed specifically towards the English edition (**Chart 2**). Remarkably, web crawlers, automated bots, and non-human agents generated 88 billion page views throughout 2025. Meanwhile, organic human page views declined by 8% year-over-year during October 2025, likely influenced by automated summaries.

The Wikipedia article on U.S. President Donald Trump was the most viewed page between 2015 and 2025 (**Chart 3**). During this decade, 46% of the most-viewed English Wikipedia articles focused on prominent personalities, while 14% involved the FIFA World Cup, and 31% were dedicated to TV shows or movies (**Chart 4**). The list of WWE personnel was the most frequently edited information on the platform (**Chart 5**).

The biography of American political activist Charlie Kirk received 15 million visits on September 10, 2025, the day he was killed. This is the highest single-day viewership for any page in the last 25 years. The article covering the 2005 London Bombings holds the record for the most edits in a single day.

Govt adds 4 new sectors to mandatory greenhouse gas reduction regime

Emission Intensity Expected To Fall 3-7% By End Of 2027

Vishwa.Mohan
@timesofindia.com

New Delhi: Three months after bringing four traditionally high-emission sectors such as aluminium, cement, chlor-alkali and pulp and paper into targeted greenhouse gas (GHG) emissions intensity reduction regime, Centre has included four more sectors—petroleum refinery, petrochemicals, textiles and secondary aluminium—in its ambit to help meet specific reduction targets by 2026-27 compared to a 2023-24 baseline.

The rules, notified by environment ministry last week, make it mandatory for as many as 208 industrial units

spread across the country to reduce GHG emissions per unit of product (emission intensity), beginning 2025-26.

These industrial units will be liable to pay a penalty for non-compliance. The rules—Greenhouse Gases Emission Intensity Target (Amendment) Rules—have been notified under the compliance mechanism of the Carbon Credit Trading Scheme, 2023.

Among the 208 industrial units are 173 textile units across sectors such as spinning, processing, fibre and composite; 21 petro refineries; 11 petrochemical units; and 3 secondary aluminium units.

PSEs ONGC, Bharat Petroleum, Hindustan Petroleum,

CLIMATE COMPLIANCE

Indian Oil and Numaligarh Refineries and large private-sector groups such as Reliance Industries have been covered under petroleum refinery and petrochemicals sectors.

The GEI targets (in tonnes of CO₂ equivalent) for 2025-26 have been calculated on a pro-rata basis for the remaining months of the current financial year. Overall reduction till

2026-27 will be in range of 3-7% compared to 2023-24 levels.

In case an industrial unit fails to comply with the GEI target or fails to submit carbon credit certificates equivalent to the shortfall for compliance, Central Pollution Control Board will impose 'environmental compensation' (penalty) for the shortfall.

The penalty will be twice

The penalty will be twice the average price at which carbon credit certificate is traded during the trading cycle of that compliance year.

the average price at which carbon credit certificate is traded during the trading cycle of that compliance year. It'll have to be paid within 90 days of the date of the imposition order.

The GEI targets are in sync with India's 'net zero' emission goal of 2070 and will help meet its Nationally Determined Contribution (NDC)—climate action target—through the reduction, removal or avoidance of greenhouse gas emissions.

1. What the government did / सरकार ने क्या किया

- The government has added 4 new sectors to a mandatory greenhouse gas (GHG) emission-intensity reduction regime.

सरकार ने अनिवार्य GHG (ग्रीनहाउस गैस) emission-intensity घटाने वाले ढांचे में 4 नए सेक्टर जोड़े हैं।

2. Old + newly added sectors / पहले वाले + नए जोड़े गए सेक्टर

- Earlier covered high-emission sectors included: aluminium, cement, chlor-alkali, pulp & paper.

पहले शामिल उच्च-उत्सर्जन सेक्टर: एल्युमिनियम, सीमेंट, क्लोर-अल्काली, पल्प-एंड-पेपर।

- Newly added sectors: petroleum refinery, petrochemicals, textiles, secondary aluminium.

नए जोड़े गए सेक्टर: पेट्रोलियम रिफाइनरी, पेट्रोकेमिकल्स, टेक्सटाइल्स, सेकेंडरी एल्युमिनियम।

3. What the target is / लक्ष्य क्या है

- The aim is to reduce GHG emissions per unit of product (emission intensity), starting 2025–26, with specific reduction targets by 2026–27 compared to a 2023–24 baseline.

लक्ष्य उत्पाद की प्रति इकाई GHG उत्सर्जन (emission intensity) घटाना है; शुरुआत 2025–26 से, और 2023–24 baseline की तुलना में 2026–27 तक तय कर्तृती लक्ष्य।

4. Scale of coverage / कवरेज का पैमाना

- The rules make it mandatory for up to 208 industrial units across the country.

नियमों के तहत देशभर में कुल 208 तक औद्योगिक इकाइयों पर यह अनिवार्य होगा।

- Break-up mentioned: 173 textile units, 21 petro refineries, 11 petrochemical units, 3 secondary aluminium units.

ब्रेक-अप: 173 टेक्सटाइल यूनिट, 21 पेट्रो रिफाइनरी, 11 पेट्रोकेमिकल यूनिट, 3 सेकेंडरी एल्युमिनियम यूनिट।

5. Legal/Policy framework / कानूनी-नीति ढांचा

- The **Greenhouse Gases Emission Intensity Target (Amendment) Rules** are notified under the compliance mechanism of the **Carbon Credit Trading Scheme, 2023**.

Greenhouse Gases Emission Intensity Target (Amendment) Rules को **Carbon Credit Trading Scheme, 2023** के compliance mechanism के तहत अधिसूचित किया गया है।

6. Expected reduction magnitude / अपेक्षित कटौती

- Overall emission-intensity reduction till **2026–27** is expected in the range of **3–7%** compared to **2023–24 levels**.

2026–27 तक कुल emission-intensity में **2023–24** की तुलना में **3–7%** तक कमी का अनुमान है।

7. Compliance & penalty / अनुपालन और दंड

- If a unit fails to meet the **GEI target** or fails to submit **carbon credit certificates** for the shortfall, **CPCB** will impose "**environmental compensation**" (**penalty**) for the gap.

यदि कोई इकाई **GEI target** पूरा नहीं करती या कमी के बराबर **carbon credit certificates** जमा नहीं करती, तो **CPCB** कमी पर "**environmental compensation**" (**पेनल्टी**) लगाएगा।

- The penalty is **twice the average trading price** of the carbon credit certificate in that compliance year's trading cycle, and must be paid within **90 days** of the order.

पेनल्टी = उस compliance year के trading cycle में carbon credit certificate के औसत ट्रेडिंग मूल्य का 2 गुना, और आदेश के **90 दिनों** में भुगतान।

Term / Concept	Meaning (quick)	Exam angle

Exam date Question

The concept of **carbon credit** originated from which one of the 17 May 2009 following? (a) Earth Summit, Rio de Janeiro (b) Kyoto Protocol (c) Montreal Protocol (d) G-8 Summit, Heiligendamm

12 June 2011 ([Press Information Bureau](#)) Regarding “carbon credits”, which statement is **NOT** correct? Options include: “Carbon credits are traded at a price fixed from time to time by UNEP” (

28 May 2023 ([UPSC](#)) Statement-I: Carbon markets are likely to be one of the most widespread tools in the fight against climate change. Statement-II: Carbon markets transfer resources from the private sector to the State. Which option is correct

Date varies Emission intensity refers to: (a) total annual emissions (b) emissions per unit output (c) emissions per capita (d) only CO₂ emissions

Date varies Carbon credit is most closely associated with: (a) Kyoto Protocol (b) Basel Convention (c) Ramsar Convention (d) CITES

Date varies “Cap-and-trade” primarily means: (a) fixed tax per tonne (b) cap on emissions + trading of allowances (c) ban on fossil fuels (d) only voluntary donations

Date varies CO₂e is used to: (a) convert all gases into CO₂ equivalent (b) measure only methane (c) measure ozone (d) measure rainfall

Date varies Which body is the main pollution control authority at the central level in India?

Answer

(b) **Kyoto Protocol**

The **UNEP price-fixing** statement is **NOT** correct

Both statements correct, but II is not the correct explanation of I (Option B) (

(b) emissions per unit output

(a) Kyoto Protocol

(b) cap + trading

(a) convert into CO₂ equivalent

CPCB

- Consider the following statements regarding the mandatory GHG emission-intensity reduction regime (as per the news):
 - Four new sectors added include petroleum refinery, petrochemicals, textiles and secondary aluminium.
 - The regime targets reduction of GHG emissions per unit of product (emission intensity) beginning 2025–26.
 - Non-compliance can attract “environmental compensation” imposed by CPCB, and the penalty is linked to carbon credit certificate trading prices.
 - Overall reduction till 2026–27 is expected to be in the range of 13–17% compared to 2023–24 levels.
 - Which of the statements given above are correct?
 - (a) 1 and 2 only
 - (b) 1, 2 and 3 only
 - (c) 2, 3 and 4 only
 - (d) 1, 2, 3 and 4
