India 'stands firmly' with Israel, Modi says in address to Knesset

Prime Minister addresses Israeli parliament as he begins a visit to the West Asian country. Modi says he supports the Gaza Peace Initiative and adds that India has uncompromising policy of zero tolerance for terrorism, with no double standards.

Kalpal Bhattacharya  
NEW DELHI

Prime Minister Narendra Modi, in his address to the Knesset on Wednesday, extended a firm bond of friendship to Israel and condemned the Hamas attack on October 7, 2023 as a "barbaric terrorist attack".

Speaking at the Israeli parliament, the Prime Minister supported the Gaza Peace Initiative saying it was necessary to "sustain" the process of peace building in the region. A Ministry Peace Initiative that was endorsed by the UN Security Council offers a pathway, India has expressed its support for the initiative. Mr. Modi also carried with him the Israeli Prime Minister Benjamin Netanyahu.

Prime Minister Narendra Modi and his Israeli counterpart, Benjamin Netanyahu, at the Knesset in Jerusalem on Wednesday.

Mr. Modi said India and Israel were working to enhance bilateral relations across sectors like water management, agriculture, and talent partnership. He also carried with him the Israeli Prime Minister Benjamin Netanyahu.

family whose world was shattered in the barbaric terrorist attack by Hamas in the region. "It is very important to sustain that hope," he said.

Mr. Modi referred to India's ties with the Jewish community as rooted in ancient trade and movement of people, and said there is "great admiration of Israel's resolve, courage and achievements" in India.

He also talked about the abolition of discrimination against the Jewish community in India and specifically referred to the Jewish communities in Kerala, Rajasthan and Mumbai.

Mr. Modi said India is committed to expanding the countries in West Asia and North Africa and said Israel moves to build relationships with Arab countries under the Abraham Accords showed "courage and vision".

"Since then, the situation has changed significantly. The path is now more challenging. You need to work on it to sustain that hope," he said.

Mr. Modi referred to India's ties with the Jewish community as rooted in ancient trade and movement of people, and said there is "great admiration of Israel's resolve, courage and achievements" in India.

Bengal court cases stall with officers busy handling SIR

Judicial work in the district and metropolitan courts across West Bengal has been severely affected after hundreds of judicial officers were deployed to process nearly 50 lakh claims and objections under the special intensive review (SIR) of electoral rolls ahead of the February 28 deadline.

Except for urgent matters and bail hearings, trials and regular proceedings — including in special courts such as those dealing with Protection of Child from Sexual Offences (POCSO) cases — have been affected as judges undertake verification work.

Committees have been formed at the Calcutta High Court and district levels to reassign urgent cases to alternative courts, but judges and judicial officers remain uncertain about when normal functioning will resume. Now that it has fallen to the judiciary to examine claims and objections, judicial officers have reached out to administrative counterparts for the verification work.

Shiba Sabharwal  
KOLKATA

Judicial work in the district and metropolitan courts across West Bengal has been severely affected after hundreds of judicial officers were deployed to process nearly 50 lakh claims and objections under the special intensive review (SIR) of electoral rolls ahead of the February 28 deadline.

Except for urgent matters and bail hearings, trials and regular proceedings — including in special courts such as those dealing with Protection of Child from Sexual Offences (POCSO) cases — have been affected as judges undertake verification work.

Judicial crunch

SC has allocated judiciary to verify almost 50 lakh claims and objections in West Bengal. Calcutta HC has deployed 250 judicial officers for verification. Trial as well as other hearings before district courts and metropolitan courts in the state have stalled following the deployment.

The former incumbent who has served as the Chief Electoral Officer, West Bengal, said that while the Representation of the People Act, 1950, the District Magistrate or the District Electoral Officer are the ones with whom real authority lies as far as election processes are concerned. When administrative jobs are thrust upon judicial officers, they "may be out of depth" because judges are used to functioning in a particular format and issuing judicial and quasi-judicial orders over pending disputes, he said.

He argued that had the judicial officers been engaged in the process about a month ago, the solution may have worked, but now only two or three days were left to meet the February 28 deadline. The Supreme Court has directed the EC to publish the final voter rolls in West Bengal on February 28. However, the implementation has to be completed on a continuous basis till the date of nomination of candidates for the upcoming Assembly polls, the Supreme Court said.

The Supreme Court on February 20 highlighted a cross default between the West Bengal government and the EC and directed that judicial officials of the state would look into claims and objections. RELATED REPORTS ON PAGE 8

U.S. 'winning so much', says Trump in long speech of the Union

Associated Press  
WASHINGTON U.S. President Donald Trump declared during a marathon State of the Union on Tuesday that "we're winning so much". In a 100-minute address before a joint session of Congress last year, the President largely avoided his usual bombast, only occasionally venting off-script — mostly to slam Democrats. As he did during each address in his first term, Mr. Trump relied on a series of surprise guest speakers to dramatically punctuate his message. They included U.S. military heroes and a former judicial prisoner released after U.S. forces toppled Venezuelan President Nicolás Maduro. The President chattered on a series of surprise crackdowns and his plan to preserve widespread

# India 'stands firmly' with Israel, Modi says in address to Knesset

Prime Minister addresses Israeli parliament as he begins a visit to the West Asian country; Modi says he supports the Gaza Peace Initiative and adds that India has uncompromising policy of zero tolerance for terrorism, with no double standards

**Kallol Bhattacharjee**  
NEW DELHI

Prime Minister Narendra Modi, in his address to the Knesset on Wednesday, extended a firm hand of friendship to Israel and condemned the Hamas attack on October 7, 2023 as a "barbaric terrorist attack".

Speaking at the Israeli parliament, the Prime Minister supported the Gaza Peace Initiative saying it was necessary to "sustain" the process of peace building in the region. "The Gaza Peace Initiative that was endorsed by the UN Security Council offers a pathway. India has expressed its firm support... We believe that it holds the promise of a just and durable peace for all the people of the region, including by addressing the Palestine issue," he said.

Prime Minister Narendra Modi and his Israeli counterpart, Benjamin Netanyahu, at the Knesset in Jerusalem on Wednesday. ANI

Mr. Modi said India and Israel were working to enhance bilateral relations across sectors such as water management, agriculture, and talent partnership, adding that he had discussed "key developments" in the region with Israeli Prime Minister Benjamin Netanyahu.

"I also carry with me the deepest condolences of the people of India for every life lost and for every

family whose world was shattered in the barbaric terrorist attack by Hamas on October 7," said Mr. Modi, adding that India stands with Israel "firmly, with full conviction".

Mr. Modi reminded the members of the Knesset about India's own struggle against terrorism and cited the 26/11 terror attack in Mumbai that killed citizens of India as well as multiple other countries, including

Israel. "Like you, we have a consistent and uncompromising policy of zero tolerance for terrorism, with no double standard," he said.

Mr. Modi said India had supported Israel's attempts to build friendly ties with the countries in West Asia and North Africa and said Israeli moves to build relationships with Arab countries under the Abraham Accords showed "courage and vision".

"Since then, the situation has changed significantly. The path is even more challenging. Yet it is important to sustain that hope," he said.

Mr. Modi referred to India's ties with the Jewish community as rooted in ancient trade and movement of people, and said there is "great admiration of Israel's resolve, courage and achievements" in India.

He also talked about the absence of discrimination against the Jewish community in India and specifically referred to the Jewish communities in Kerala, Kolkata and Mumbai.

Mr. Modi said India is committed to expanding trade with Israel and informed that both sides are working on it through "cross-border financial linkages" using "Digital Public Infrastructure". He said the two sides are also working on an ambitious Free Trade Agreement.

Earlier, Mr. Netanyahu said Mr. Modi "did not flinch" and that under his leadership, India provided support to Israel in the challenging times over the recent past. "You stood for Israel. You stood for the Jews. Thank you," said Mr. Netanyahu.

### 3 Gaza Peace Initiative & Palestine Issue

- India supported the Gaza Peace Initiative and emphasized a sustainable peace process.
  - भारत ने गाजा शांति पहल का समर्थन किया और स्थायी शांति प्रक्रिया पर जोर दिया।
  - India reiterated commitment to a just and durable solution including the Palestinian issue (Two-State Solution principle).
  - भारत ने फिलिस्तीन मुद्दे सहित न्यायसंगत और स्थायी समाधान (दो-राष्ट्र सिद्धांत) का समर्थन दोहराया।
- 

### 4 India–Israel Bilateral Relations

- Cooperation areas: Water management, agriculture, innovation, defence, digital public infrastructure, fintech linkages.
- सहयोग क्षेत्र: जल प्रबंधन, कृषि, नवाचार, रक्षा, डिजिटल पब्लिक इंफ्रास्ट्रक्चर, फिनटेक।
- Both sides working toward a Free Trade Agreement (FTA).
- दोनों देश मुक्त व्यापार समझौते (FTA) पर कार्य कर रहे हैं।

## 5 Jewish Community in India

- PM highlighted absence of discrimination against Jews in India (Kerala, Kolkata, Mumbai communities).
  - प्रधानमंत्री ने भारत में यहूदी समुदाय के विरुद्ध भेदभाव के अभाव को रेखांकित किया (केरल, कोलकाता, मुंबई)।
  - Ancient trade links between India and West Asia emphasized.
  - भारत और पश्चिम एशिया के प्राचीन व्यापारिक संबंधों पर जोर दिया गया।
- 

## Extra Historical, Political, Economic & Geographical Facts

### Historical Background

- India recognized Israel in 1950 but full diplomatic relations established in 1992.
- भारत ने 1950 में इज़राइल को मान्यता दी, परंतु पूर्ण राजनयिक संबंध 1992 में स्थापित हुए।
- First Indian PM to visit Israel – Narendra Modi (2017).
- इज़राइल की यात्रा करने वाले पहले भारतीय प्रधानमंत्री – नरेंद्र मोदी (2017)।
- Abraham Accords (2020) normalized Israel's relations with UAE, Bahrain, Morocco, Sudan.
- अब्राहम समझौते (2020) से इज़राइल के UAE, बहरीन, मोरक्को, सूडान से संबंध सामान्य हुए।

## Political Dimension

- India follows a de-hyphenation policy: independent relations with Israel and Palestine
  - भारत डी-हाइफनेशन नीति अपनाता है: इज़राइल और फिलिस्तीन से अलग-अलग संबंध।
  - Supports Two-State Solution based on UN resolutions.
  - संयुक्त राष्ट्र प्रस्तावों पर आधारित दो-राष्ट्र समाधान का समर्थन।
- 

## Economic Dimension

- Bilateral trade crossed approx. \$10 billion (including defence).
  - द्विपक्षीय व्यापार लगभग 10 अरब डॉलर से अधिक।
  - Israel is a major defence supplier to India (drones, missiles, radar systems).
  - इज़राइल भारत को ड्रोन, मिसाइल, रडार आदि रक्षा उपकरणों का प्रमुख आपूर्तिकर्ता है।
  - India–Middle East–Europe Economic Corridor (IMEC) announced in G20 2023.
  - G20 2023 में भारत-मध्य पूर्व-यूरोप आर्थिक कॉरिडोर (IMEC) की घोषणा हुई।
-

Consider the following statements:

1. India established full diplomatic relations with Israel in 1992.
2. India supports a Two-State Solution to resolve the Israel–Palestine conflict.
3. Israel is located in South-East Asia.

Which of the statements given above are correct?

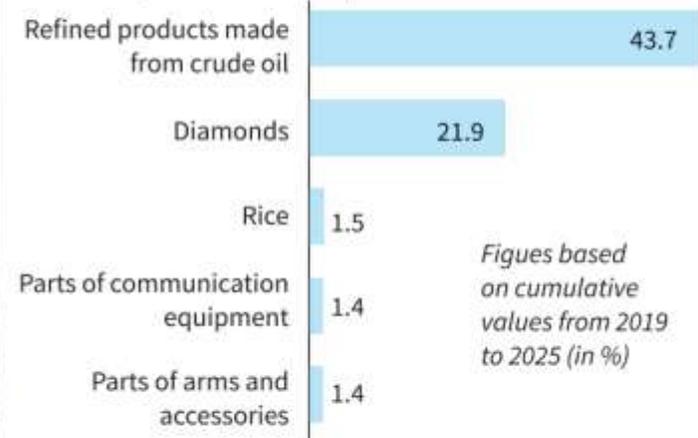

- A. 1 and 2 only
- B. 2 and 3 only
- C. 1 only
- D. 1, 2 and 3

# SC takes *suo motu* case over NCERT corruption remark

The court decides to register the *suo motu* case despite reports that the controversial portion in the textbook had been withdrawn; the CJ calls it a calculated attempt to denigrate the judiciary

**The Hindu Bureau**  
NEW DELHI

**T**he Supreme Court on Wednesday registered a *suo motu* case over a “selective reference” in a Class 8 textbook, published by the National Council of Educational Research and Training (NCERT), about “corruption” in the judiciary.

A three-judge Bench of Chief Justice of India Surya Kant and Justices Joymalya Bagchi and Vipul M. Pancholi is scheduled to hear the case titled “In Re : Social Science Textbook for Grade-8 (Part 2) published by NCERT and ancillary issues” at 10.30 a.m. on Thursday.

The Supreme Court decided to go ahead and register a *suo motu* case even as media reports flashed that the portion in question in the textbook had

The NCERT is tasked with developing curriculum frameworks, publishing textbooks and conducting research. FILE PHOTO

been withdrawn.

Chief Justice Kant was livid as he referred to the textual content as a “tentatively calculated, deep-rooted attempt” to denigrate the judicial institution. “I will not let anything like that to happen,” he emphasised when senior advocates Kapil Sibal and Abhishek Manu Singhvi brought up the issue in open court.

Mr. Sibal said that the re-

ference to “corruption”, particularly in relation to the judiciary, seemed deliberate.

“It is as if there is no corruption in other organs of governance – Ministers, bureaucrats, the police, politicians,” Mr. Sibal and Mr. Singhvi said.

## ‘Calculated move’

Chief Justice Kant said he had received many calls from the Bar and from the

High Courts about the content in the textbook.

“I will not allow anybody to defame the institution. Law will take its course. As the head of the institution, I have done my duty and I have taken cognisance. This seems to be a calculated move... I will not say much,” Chief Justice said.

Justice Bagchi indicated that the mention in the school book affected Constitutional integrity and impacted the principle of separation of powers, a fundamental part of the Basic Structure Doctrine.

The chapter ‘The Role of the Judiciary in Our Society’ in a Class 8 Social Science book prescribed by NCERT mentions that corruption, a massive backlog of cases, and a lack of adequate number of judges were among the “challenges” faced by the judicial system.

<b>Subject</b>	<b>Class &amp; Year</b>	<b>Topics Previously Present</b>	<b>New Topics Added</b>	<b>Topics Removed or Controversial</b>
<b>History</b>	Class 9 (2021–22)	Harappan Civilization, Medieval India (Broad)	More inclusive sections on tribal histories	Some perception of “Eurocentric” narratives de-emphasised
<b>History</b>	Class 10 (2022–23)	Nationalism, Freedom Struggle	Additional case studies on lesser historians	Removed certain dated quotations debated for bias
<b>Civics / Political Science</b>	Class 8 (2023–24)	Role of Judiciary, Legislature	Expanded Constitutional morality & rights	<b>Removed reference implying “judicial corruption”</b> after controversy
<b>Civics / Political Science</b>	Class 10 (2024–25)	Government Structure & Functions	More on digital governance, e-governance tools	Old examples of political events removed for recency
<b>Economics</b>	Class 11 (2022–23)	Microeconomic Concepts	Introduction of digital economy basics	Reworked certain dated poverty statistics

<b>Economics</b>	Class 12 (2023–24)	National Income Accounting	GST impacts & renewable energy economics	Obsolete graphical examples removed
<b>Geography</b>	Class 7 (2022–23)	Water Resources	GIS, Remote Sensing basics added	Old case studies on dams swapped to balanced ones
<b>Geography</b>	Class 12 (2024–25)	Agriculture patterns	Climate change impacts on agriculture	Removed repetitive chapters; added updated stats
<b>Science / Biology</b>	Class 10 (2021–23)	Human Health & Diseases	Vaccine development & pandemic preparedness	Some outdated disease prevalence figures removed
<b>Science / Physics</b>	Class 11 (2023–24)	Electricity	Digital electronics, semiconductors added	Outdated circuit examples updated

## 1 What happened? / क्या हुआ?

- The Supreme Court registered a *suo motu* case over a Class 8 NCERT textbook reference to "corruption" in the judiciary.
  - सर्वोच्च न्यायालय ने कक्षा 8 की NCERT पुस्तक में न्यायपालिका में "भ्रष्टाचार" के उल्लेख पर स्वतः संज्ञान (सुओ मोटू) मामला दर्ज किया।
  - The CJI termed it a "calculated attempt" to denigrate the judiciary.
  - मुख्य न्यायाधीश ने इसे न्यायपालिका को बदनाम करने का "सुनियोजित प्रयास" बताया।
- 

## 2 Bench & Case Details / पीठ एवं मामला

- A three-judge Bench led by the Chief Justice of India heard the matter.
- मुख्य न्यायाधीश की अध्यक्षता में तीन न्यायाधीशों की पीठ ने मामले की सुनवाई की।
- Case title: "In Re: Social Science Textbook for Grade-8 (Part-2) published by NCERT".
- मामला शीर्षक: "इन रे: कक्षा-8 सामाजिक विज्ञान पाठ्यपुस्तक (भाग-2) NCERT द्वारा प्रकाशित"।

### 3 Key Constitutional Concerns / प्रमुख संवैधानिक मुद्दे

- Court said such remarks may affect the institutional integrity of the judiciary.
  - न्यायालय ने कहा कि ऐसे उल्लेख से न्यायपालिका की संस्थागत गरिमा प्रभावित हो सकती है।
  - It impacts the principle of Separation of Powers — part of the Basic Structure Doctrine.
  - यह शक्तियों के पृथक्करण के सिद्धांत को प्रभावित करता है — जो मूल संरचना सिद्धांत का हिस्सा है।
- 

### 4 NCERT Context / NCERT का संदर्भ

- NCERT develops curriculum frameworks and publishes textbooks under the Ministry of Education.
- NCERT शिक्षा मंत्रालय के अंतर्गत पाठ्यक्रम रूपरेखा बनाता और पुस्तकें प्रकाशित करता है।
- The controversial portion reportedly mentioned corruption, backlog of cases and shortage of judges as challenges.
- विवादित अंश में भ्रष्टाचार, लंबित मामलों की संख्या और न्यायाधीशों की कमी को चुनौतियों के रूप में बताया गया था।

# Important Legal & Constitutional Concepts

## ◆ Suo Motu Power

- "Suo motu" means taking cognizance on its own without a formal petition.
  - "सुओ मोटू" का अर्थ है बिना औपचारिक याचिका के स्वयं संज्ञान लेना।
  - Derived from Articles 32 and 142 of the Constitution (judicial powers).
  - यह संविधान के अनुच्छेद 32 और 142 से संबंधित न्यायिक शक्तियों से जुड़ा है।
- 

## ◆ Separation of Powers

- Divides power among Legislature, Executive and Judiciary.
- शक्तियों का विभाजन विधायिका, कार्यपालिका और न्यायपालिका में करता है।
- Ensures checks and balances in governance.
- शासन में नियंत्रण और संतुलन सुनिश्चित करता है।

## ◆ Basic Structure Doctrine

- Evolved in the Kesavananda Bharati case (1973).
  - केशवानंद भारती मामला (1973) में विकसित हुआ।
  - Parliament cannot alter the basic structure of the Constitution.
  - संसद संविधान की मूल संरचना को परिवर्तित नहीं कर सकती।
  - Judicial independence is part of the basic structure.
  - न्यायपालिका की स्वतंत्रता मूल संरचना का हिस्सा है।
- 

## 🌐 Historical & Political Background

- Judiciary has faced criticism over pendency of cases (over 4 crore cases pending in India).
- भारत में लंबित मामलों की संख्या 4 करोड़ से अधिक है।
- Collegium system governs appointment of judges (SC & HC).
- कोलेजियम प्रणाली सर्वोच्च व उच्च न्यायालय के न्यायाधीशों की नियुक्ति करती है।
- NJAC Act (2014) was struck down by SC in 2015 to protect judicial independence.
- NJAC अधिनियम (2014) को 2015 में सुप्रीम कोर्ट ने न्यायिक स्वतंत्रता की रक्षा हेतु निरस्त किया।

## How are Indian firms training LLMs?

Why is training a Large Language Model on Indian soil with Indian capital a challenge? How has the IndiaAI Mission subsidised efforts to conduct training in India? Why is a Mixture of Experts (MoE) architecture inexpensive than other comparable models?

### EXPLAINER

#### Arjun Deen

The story so far:

The AI Impact Summit, the Bengaluru-based startup Sarvam AI released two Large Language Models (LLMs), which are the foundation for AI systems that power services like Google's Gemini and OpenAI's ChatGPT. The two models were trained on 48 billion and 108 billion parameters respectively, and were less power- and compute-intensive than comparable models, while demonstrating improvements over other models in Indian languages, Pratyush Kumar, a Sarvam co-founder said.

**How are LLMs trained?** LLMs are trained and operated on clusters of Graphics Processing Units (GPUs). The combined cost of the GPUs and the electricity needed to run them long enough to train a model, run into millions of dollars. The grist for this mill is data, largely scraped from the Internet where English, European languages and East Asian languages like Korean and Japanese are more richly represented than Indian languages.

This creates a twofold challenge for training an LLM on Indian soil with Indian capital. For one thing, with scarce data sources, many LLMs either perform worse when operating on Indian languages, or lack of "tokens" on inference to translate sentences into English (and translating responses back) to perform better. Since machine translation has improved dramatically for Indian languages, this remains the gold standard for many LLMs. Secondly, since capital is also scarce, efforts to train an LLM by Indian firms targeting Indian users can be challenging, especially if there is no immediate business use case for doing so.

Using translations as a fulcrum can be a

New Delhi: Prime Minister Narendra Modi with Sarvam co-founder Pratyush Kumar at the AI Impact Summit, at Bharat Mandapam, in New Delhi on February 19, 2025.

challenge for developers who want to leverage local LLMs — like Sarvam's 48 billion parameter model, which was shown off in a demo during the summit's research symposium working on a feature phone — where suboptimal performance in Indian languages can impact adoption and quality of performance.

**Has there been government support?** The IndiaAI Mission has subsidised efforts to conduct training in India, by commissioning over 36,000 GPUs in data centres operated by Indian firms like Veda, and allowing researchers and startups to run training and inference workloads at a relatively minimal fee. The government gave Sarvam access to 4,000 GPUs from its common compute cluster, and the subsidy so far is estimated at

almost ₹100 crore. The "bill of materials" for this cluster is ₹246 crore, though these GPUs can probably be continued to be used by others.

The Ministry of Electronics and Information Technology has encouraged domestic LLM development for many reasons. The main one is a belief that foreign-developed LLMs can't possibly find the capabilities or the business case to develop the capacity to work well with Indian languages. Additionally, encouraging talent that can train LLMs has been seen as important to foster the Indian AI ecosystem.

As such, Sarvam's announcement of its two models is a significant development in India's own quest to develop a LLM. When China's DeepSeek developed its B1

LLM, the entire AI industry quickly adopted its techniques, as it saved on cost for training and inference without compromising output quality. The government has sought to spark a similar cost advantage.

Mr. Kumar of Sarvam said that the LLM was trained "from scratch," and that the model would be made open source. However, while it has been made available as an app named Veda, it is not available on platforms like Hugging Face, making it difficult for outside experts to scrutinise the claims the firm has made.

**What is the MoE architecture?** A key breakthrough for AI models seeking to run locally was the Mixture of Experts (MoE) architecture. When the first LLMs trained on hundreds of billions or even over a trillion parameters were launched, inference was typically run by "activating" all parameters, making queries expensive. But an MoE model only activates a fraction of the overall parameters of a model, making it run faster and also consume a lower level of computing resources.

Even 405 billion parameters, Sarvam acknowledges, "is significantly smaller than the frontier models powering global consumer chat applications today," and the firm says it is "intentionally focused on accuracy, usefulness, efficiency, and alignment for the Indian context before training bigger foundational models". As such, the answers are not as in-depth as a response from paid versions of ChatGPT. That part will come later, Sarvam says, when it has the necessary investments to put money into a larger training run.

Another LLM developed and trained on the common compute cluster was by BharatGen, the IIT Bombay-incubated firm that was able to train a "multilingual" 17 billion parameter model. That model, the firm says, is far use in sectors like education and healthcare. Global AI, another firm, launched a small text-to-speech model.

### THE GIST

LLMs are trained and operated on clusters of Graphics Processing Units (GPUs). The combined cost of the GPUs and the electricity needed to run them long enough to train a model, run into millions of dollars.

The IndiaAI Mission has subsidised efforts to conduct training in India, by commissioning over 36,000 GPUs in data centres operated by Indian firms like Veda.

A key breakthrough for AI models seeking to function locally was the Mixture of Experts (MoE) architecture.

## What are carbon capture and utilisation technologies?

How can such technologies reduce carbon dioxide emissions? What is the EU Bioeconomy Strategy and Circular Economy Action Plan? How can India scale-up CCU technology?

#### Shambhavi Nath

The story so far:

Carbon Capture and Utilisation (CCU) refers to a set of technologies that capture carbon dioxide emissions from industrial sources or directly from the air and convert them into useful products. This process removes carbon from the atmosphere and puts it into the economy as inputs for fuels, chemicals, building materials, or polymers. Unlike carbon capture and storage, where captured CO<sub>2</sub> is permanently stored underground rather than reused, CCU uses up the captured carbon.

**Why does India need CCU?** India has consistently been the world's third-largest emitter of CO<sub>2</sub>, with emissions driven largely by power generation, cement, steel, and chemicals.

While renewable energy may reduce future emissions, many industrial processes are inherently carbon-intensive and difficult to decarbonise. CCU offers a pathway to reduce emissions from these "hard-to-abate" sectors while simultaneously creating new industrial value chains. It also aligns with India's net-zero target for 2070 and its push to build a circular, low-carbon economy.

**Where does India stand today?** India has begun supporting research funding from the Department of Science and Technology which has created a specific research and development roadmap for these technologies. The draft 2030 roadmap for Carbon Utilization and Storage (CUS) presented by the Ministry of Petroleum and Natural Gas has identified projects that can be used for CUS purposes. In the private sector, Ambuja Cement

(Adani Group) is working on an Indo-Israeli CCU pilot with IFF Energy to convert captured CO<sub>2</sub> into fuels and materials. JK Cement is collaborating on a CCU testbed to capture CO<sub>2</sub> for applications such as lightweight concrete blocks and olefins. Beyond cement, Organic Recycling Systems Limited (ORSL) is leading India's first pilot-scale Bio-CCU platform, valorising CO<sub>2</sub> from biogas streams into bio-ethanol and specialty chemicals.

**What are other countries doing?** The EU Bioeconomy Strategy and Circular Economy Action Plan explicitly support CCU as a way to turn CO<sub>2</sub> into feedstocks for chemicals, fuels, and materials. Linking it to circularity and sustainability targets. ArcelorMittal and Mitsubishi Heavy Industries, Ltd. are working with a climate tech company, I2-GRIN, to trial a new technology to convert CO<sub>2</sub> captured

at ArcelorMittal's plant in Gent, Belgium into carbon monoxide which can be used to steel and chemical production. The U.S. uses a combination of tax credits and funding to scale CCUs, particularly for CO<sub>2</sub>-derived fuels and chemicals. The UAE's AI Baysalab project and planned CO<sub>2</sub>-to-chemicals hubs leverage CCU with green hydrogen.

**What are the risks ahead?** The foremost risk in scaling CCU in India is cost competitiveness. Capturing, purifying, and converting CO<sub>2</sub> is energy-intensive and expensive. Without policy incentives, cost-derivative products will struggle to compete with cheaper, fossil-based alternatives. A second risk lies in infrastructure readiness. CCU requires co-located industrial clusters, reliable transport of CO<sub>2</sub>, and integration with downstream manufacturing, all of which are unevenly developed across Indian industrial zones. Finally, the absence of clear standards, certification, and market signals is impeding early investment and limits demand for CO<sub>2</sub>-derived products.

India has taken positive steps through the development of roadmaps to achieving CCU, and their appropriate implementation will be necessary for achieving India's goals. Chemicals, steel, and cement are key sectors. *Tukushilla Institute's Health & Life Sciences Policy.*

### THE GIST

Carbon Capture and Utilization (CCU) refers to a set of technologies that capture carbon dioxide emissions from industrial sources or directly from the air and convert them into useful products.

India has consistently been the world's third-largest emitter of CO<sub>2</sub>.

The foremost risk in scaling CCU in India is cost competitiveness. Capturing, purifying, and converting CO<sub>2</sub> is energy-intensive and expensive.

India has taken positive steps through the development of roadmaps to achieving CCU, and their appropriate implementation will be necessary for achieving India's goals.

# CARBON CAPTURE

# CCUS

## CARBON CAPTURE, UTILIZATION AND STORAGE

## 1 What is CCU? / CCU क्या है?

- Carbon Capture and Utilisation (CCU) captures CO<sub>2</sub> from industrial sources or directly from air and converts it into useful products.
  - कार्बन कैप्चर एंड यूटिलाइजेशन (CCU) औद्योगिक स्रोतों या वायु से CO<sub>2</sub> पकड़कर उसे उपयोगी उत्पादों में बदलता है।
  - Unlike Carbon Capture and Storage (CCS), CCU reuses captured carbon instead of storing it underground.
  - CCS के विपरीत, CCU पकड़े गए कार्बन को भूमिगत संग्रहित करने के बजाय पुनः उपयोग करता है।
  - CO<sub>2</sub> can be converted into fuels, chemicals, polymers, building materials, and synthetic products.
  - CO<sub>2</sub> को ईंधन, रसायन, पॉलिमर, निर्माण सामग्री और सिंथेटिक उत्पादों में बदला जा सकता है।
- 

## 2 Why is CCU Important for India? / भारत के लिए CCU क्यों महत्वपूर्ण?

- India is the world's third-largest CO<sub>2</sub> emitter.
- भारत विश्व का तीसरा सबसे बड़ा CO<sub>2</sub> उत्सर्जक है।
- Hard-to-abate sectors like cement, steel, chemicals, and power need CCU for decarbonisation.
- सीमेंट, इस्पात, रसायन और ऊर्जा जैसे कठिन-उत्सर्जन क्षेत्रों के लिए CCU आवश्यक है।
- Aligns with India's Net Zero target of 2070 and circular economy goals.
- यह भारत के 2070 नेट-जीरो लक्ष्य और सर्कुलर अर्थव्यवस्था लक्ष्यों से मेल खाता है।

### 3 Where Does India Stand? / भारत की स्थिति

- Department of Science & Technology (DST) has developed a CCU R&D roadmap.
  - विज्ञान एवं प्रौद्योगिकी विभाग (DST) ने CCU के लिए अनुसंधान रोडमैप बनाया है।
  - Ministry of Petroleum & Natural Gas released a draft 2030 CCUS roadmap.
  - पेट्रोलियम एवं प्राकृतिक गैस मंत्रालय ने 2030 CCUS रोडमैप जारी किया।
  - Indian companies like Ambuja Cements, JK Cement, ORSL are piloting CCU projects.
  - अंबुजा सीमेंट, जेके सीमेंट और ORSL जैसी कंपनियाँ पायलट परियोजनाएँ चला रही हैं।
- 

### 4 What Are Other Countries Doing? / अन्य देश क्या कर रहे हैं?

- EU Bioeconomy Strategy and Circular Economy Action Plan support CO<sub>2</sub>-to-products industries.
- यूरोपीय संघ की बायोइकोनॉमी रणनीति और सर्कुलर इकोनॉमी एक्शन प्लान CO<sub>2</sub>-आधारित उद्योगों को बढ़ावा देते हैं।
- US provides tax credits (e.g., 45Q) to scale carbon capture.
- अमेरिका 45Q जैसे टैक्स क्रेडिट देकर कार्बन कैप्चर को प्रोत्साहन देता है।
- UAE's Al Reyadah project integrates CCU with green hydrogen.
- UAE का अल रियादाह प्रोजेक्ट ग्रीन हाइड्रोजन के साथ CCU को जोड़ता है।

## ◆ Carbon Capture & Storage (CCS)

- CO<sub>2</sub> captured and permanently stored underground.
- CO<sub>2</sub> को पकड़कर स्थायी रूप से भूमिगत संग्रहित किया जाता है।

## ◆ Circular Economy

- Minimises waste and reuses resources for sustainability.
- अपशिष्ट कम कर संसाधनों का पुनः उपयोग।

## ◆ Bioeconomy

- Economy based on renewable biological resources.
  - नवीकरणीय जैव संसाधनों पर आधारित अर्थव्यवस्था।
- 

## ! Risks & Challenges

- High cost and energy-intensive process.
- उच्च लागत और ऊर्जा-गहन प्रक्रिया।
- Lack of infrastructure and CO<sub>2</sub> transport systems.
- CO<sub>2</sub> परिवहन एवं बुनियादी ढाँचे की कमी।
- Absence of carbon pricing and strong policy incentives.
- कार्बन मूल्य निर्धारण और नीतिगत प्रोत्साहनों का अभाव।

## Global Climate Context

- Paris Agreement (2015) aims to limit global warming below 2°C.
- पेरिस समझौता (2015) का लक्ष्य तापमान वृद्धि 2°C से कम रखना है।
- IPCC recommends CCUS for limiting warming to 1.5°C.
- IPCC ने 1.5°C लक्ष्य हेतु CCUS को महत्वपूर्ण बताया है।

## Economic Dimension

- Carbon markets (EU ETS) provide pricing incentives.
- EU ETS कार्बन मूल्य निर्धारण का तंत्र प्रदान करता है।
- CCU can create green jobs and new industrial value chains.
- CCU हरित रोजगार और नई औद्योगिक शृंखलाएँ बना सकता है।

## Geographical Relevance

- Industrial clusters (Gujarat, Maharashtra, Tamil Nadu) suitable for CCU hubs.
- गुजरात, महाराष्ट्र, तमिलनाडु जैसे औद्योगिक क्लस्टर CCU हब के लिए उपयुक्त हैं।

Consider the following statements:

1. Carbon Capture and Utilisation converts captured CO<sub>2</sub> into useful products.
2. Carbon Capture and Storage permanently stores CO<sub>2</sub> underground.
3. CCU directly increases fossil fuel consumption.

Which of the statements given above are correct?

- A. 1 and 2 only
  - B. 2 and 3 only
  - C. 1 only
  - D. 1, 2 and 3
-

The Centre has mandated the sale of petrol with up to 20% ethanol and a minimum Research Octane Number (RON) of 9 from April 1. The Oil Ministry, in a February 17 notification, said, "the Central government hereby directs oil companies to sell ethanol blended motor spirit (petrol) with percentage of ethanol up to 20% as per Bureau of Indian Standards specifications and having minimum Research Octane Number (RON) of 95, in States and the Union Territories..."

**+ 'SECL, Chhattisgarh eyeing floating solar, coal gasification JVs'**

**Saptarishi Solar**
NEW DELHI
South Eastern Coalfields Ltd. (SECL) is exploring joint-ventures with the State government of Chhattisgarh for floating solar and surface coal gasification projects, CMD Harish Dubhan told The Hindu.
The move expects to incorporate 626 megawatt (MW) of solar energy capacity by FY22-23. Further, the joint venture on gasifica-

tioning solar, Mr. Dubhan stated, "We have had discussions with the Chhattisgarh State Power Generation Company Ltd. to pursue floating solar projects in the state, which is blessed with large reservoirs. The move is a guiding larger policy on the front is to the formulation of the state, and discussions are ongoing."
Mr. Dubhan said the state would also be looking to tap into closed mines to es-

tablish solar power projects alongside contributing to parent Coal India's ongoing projects in Raipur, Madhya Pradesh and Uttar Pradesh.
**Gasification push**
Mr. Dubhan said discussions about a coal gasification JV with Chhattisgarh government and is at the "conceptual stage".
"At present, the Chhattisgarh government is looking to incentivise coal gas-

**'Cut costs, fix mis-selling for affordable insurance'**

**Essa Trust of India**
MUMBAI
The insurance industry must rein in customer acquisition costs and overall management expenses to improve profitability and make products more affordable, a senior IRDAI official said on Wednesday.
The "insurance reform" organised by CII here, Insurance Regulatory and Development Authority of India (IRDAI) member said, "The industry has high distribution and administrative costs have locked the sector into a 'low-penetration, high-cost' cycle, limiting its ability to expand coverage."
"The high cost of acquisition and high expenses of management (G&A) need immediate focus from all players. That is critical to improve profitability and deliver affordability and value to customers," Mr. Sood said.
He urged the insurers to evaluate the value delivered across products, channels and business lines.

**Private sector net profit rose 5.2% in Q3FY26: RBI data**

**Ashokanandhan T.**
MUMBAI
The net profit of private non-financial companies increased 5.2% in the third quarter of fiscal 2020, as against 6.6% last year in the year earlier period, as per data from the Reserve Bank of India (RBI).
The improvement in profit after tax (PAT) came on the part of a 10% rise in sales revenue coming in at ₹9.4 lakh crore of the over 3,000 companies of which RBI analysed the data.
Sales revenue increased at the quickest pace in electricity and gas, up 11.4%.
The net profit of the reporting quarter for manufacturing companies increased 5.2% and 5.2% as against 6.2% and 7.8% in the year ago period.
Fuel costs reduced for the quarter, revenue from operations increased 8% to ₹16.7 lakh crore. Increase in revenue from operations came from iron and steel, manufacturing companies.
The cohort of over 1,700 manufacturing companies increased 8.4% in the reporting quarter, as against 8.3% in the year ago period. The raw material cost and staffing

**U.S. slaps 126% levy on Indian solar imports**

Tariffs were slapped on India, Indonesia and Laos following an ongoing probe. In FY23, India exported \$1 billion worth photovoltaics to the U.S.

**Joseph Koshy**
NEW DELHI
The Trump administration slapped a 126% levy on solar cell imports from India following a 'preliminary' determination that subsidised exports from Indian firms were hurting the competitiveness of U.S. solar firms and contravened World Trade Organization agreements on subsidies.
The tariffs were collectively imposed on February 24 on India, Indonesia and Laos following a probe by the U.S. Department of Commerce on a complaint by the Alliance for American Solar Manufacturing and Trade, a coalition of leading U.S. solar firms.

Indian firms under the U.S. Commerce Ministry's radar included Mundra Solar Energy Pvt. Ltd. and Mundra Solar PV Ltd., both part of Adani Group's Premier Energy; Phoenix-volt Private Ltd., Waaree Energies Ltd. and Waaree Solar American. The department set initial rates of 8% for Indonesia and 8% for Laos.
**Framework deal**
This levy comes after New Delhi and Washington agreed on a framework for the India-U.S. trade deal to cut tariffs on solar cell exports to 18% from 50% earlier. After this, the U.S. Supreme Court quashed Trump tariffs, calling them unconstitutional. Presi-

dent Trump then came up with a new 18% baseline duty on solar imports.
On February 24, per a notice on the U.S. Commerce Ministry site, it was Adani firms that were specifically named with a duty rate of 126%. Besides, these rates, as of now, apply to all Indian exporters.
These duties are additional to existing tariffs. The final determination in the U.S. Commerce Department is now scheduled to be issued on July 6, 2020.
The U.S. Commerce Department is conducting concurrent anti-dumping duty probe of solar cells from India, Indonesia and Laos.
According to data cited by U.S. authorities, Indian firms in 2022 exported 232 mega-watts (MW) worth of solar cells which rose to 304.9 MW in 2023 and 329.7 MW in 2024.
In 2022-23 \$1,000 million worth photovoltaics were exported and that rose to \$1,000 million in 2023-24. Exports stood at \$954 million in April-December 2023.

**PMO meets on CAFE-3 norms**

**Jagrit Chandra**
NEW DELHI
The Prime Minister's Office (PMO) held a meeting on Wednesday to review the proposed carbon emission norms for passenger vehicles slated to take effect from 2027, though no final decision was reached.
A senior government official who was part of the high-level meeting said that there was "no final decision" on the contentious issue of draft Corporate Average Fuel Efficiency (CAFE)-3 norms which have divided small and big manufacturers.
Officials of the Ministry of Power, Bureau of Energy Efficiency, and Ministry of Heavy Industries were part of the meeting.
Speaking to reporters on the sidelines of a FICCI meeting, he already had a meeting with stakeholders of the CAFE-3 initiative. The PMO Ministry, according to his information, sent the proposal to the PMO.

On contents of the proposal, he said, "Whatever best way we have to get courage for electric mobility," he was trying to make.
**Revised draft**
The Bureau of Energy Efficiency recently circulated a revised draft of the CAFE-3 norms to the industry after the earlier version received an objection from the U.S. and the industry triggered divisions.
How much, still needs to be determined. Some months see a surge in exports and less in others, so

it could well be, we won't see an impact beyond the immediate quarter," the person explained.
Currently duties of up to 40% are imposed on such exports of solar cells.
These duties are additional to existing tariffs. The final determination in the U.S. Commerce Department is now scheduled to be issued on July 6, 2020.
The U.S. Commerce Department is conducting concurrent anti-dumping duty probe of solar cells from India, Indonesia and Laos.
According to data cited by U.S. authorities, Indian firms in 2022 exported 232 mega-watts (MW) worth of solar cells which rose to 304.9 MW in 2023 and 329.7 MW in 2024.
In 2022-23 \$1,000 million worth photovoltaics were exported and that rose to \$1,000 million in 2023-24. Exports stood at \$954 million in April-December 2023.

ing to continued a dominant position in power generation, Mr. Dubhan said it is a "robust source of abundance available and offer stability of power."
"New, low-cost and fuel-based electricity lacks consistency. Stability of a renewable is imperative in a growing economy like ours, thus, we must continue to explore an important role," he said.
"AI present, the Chhattisgarh government is looking to incentivise power installations and coal conversion to continued a dominant position in power generation, Mr. Dubhan said it is a "robust source of abundance available and offer stability of power."
"New, low-cost and fuel-based electricity lacks consistency. Stability of a renewable is imperative in a growing economy like ours, thus, we must continue to explore an important role," he said.

# U.S. slaps 126% levy on Indian solar imports

Tariffs were slapped on India, Indonesia and Laos following an ongoing probe; In FY23, India exported \$1 billion worth photovoltaics to the U.S.

**Jacob Koshy**  
NEW DELHI

**T**he Trump administration slapped a 126% levy on solar cell imports from India following a 'preliminary' determination that subsidised exports from Indian firms were hurting the competitiveness of U.S. solar firms and contravened World Trade Organization agreements on subsidies.

The tariffs were collectively imposed on February 24 on India, Indonesia and Laos following a probe by the U.S. Department of Commerce on a complaint by the Alliance for American Solar Manufacturing and Trade, a coalition of leading U.S. solar firms.

Indian firms under the U.S. Commerce Ministry's radar included Mundra Solar Energy Pvt. Ltd. and Mundra Solar PV Ltd. — both part of Adani Group — Premier Energies Photovoltaic Private Ltd., Waaree Energies Ltd. and Waaree Solar Americas. The department set initial rates of 86%-143% for Indonesia and 81% for Laos.

## Framework deal

This levy comes after New Delhi and Washington agreed on a framework for the India-U.S. trade deal to cut tariffs on India's exports to 18% from 50% earlier. After this, the U.S. Supreme Court quashed Trump tariffs, calling them unconstitutional. Presi-

**Dark days:** Staff inspecting solar panels on assembly lines at an Adani Group factory in Gujarat's port city of Mundra. AFP FILE

dent Trump then came up with a new 15% baseline duty on several imports.

On February 24, per a notice on the U.S. Commerce Ministry site, it was Adani firms that were specifically named with a duty rates of 125.87% though these rates, as of now, apply to all Indian exporters.

## May be impacted

*The Hindu* didn't receive comments from the firms as of press time. However, given the U.S. is the biggest export destination for solar parts, Indian exports could likely be 'impacted.' The implications of the order were still being studied, a spokesperson for Solex Energy Ltd., a Surat-based solar firm told *The Hindu*. "There will be an impact as the U.S. is a major export destination. How much... still needs to be determined. Some months sees a surge in exports and less in others, so

it could well be, we won't see an impact beyond the immediate quarter," the person explained.

Currently duties of up to 40% are imposed on such export of solar cells.

These duties are additional to existing tariffs. The final determination in the CVD investigations are now scheduled to be issued on July 6, 2026. The U.S. Commerce Department is conducting concurrent anti-dumping duty probe of solar cells from India, Indonesia and Laos.

According to data cited by U.S. authorities, Indian firms in 2022 exported 232 mega watts (MW) worth of solar cells which rose to 2049 MW in 2023 and 2297 MW in 2024.

In 2022-23 \$1,000 million worth photovoltaics were exported and that rose to \$1,939.92 million in 2023-24. Exports stood at \$954 million in April-December 2025.

- The U.S. imposed a **126% countervailing duty (CVD)** on solar cell imports from India.
  - अमेरिका ने भारत से आयातित सोलर सेल पर **126% प्रतिकर शुल्क (CVD)** लगाया।
  - The action followed a U.S. Commerce Department probe into alleged subsidised exports.
  - यह कदम अमेरिकी वाणिज्य विभाग की सब्सिडी जांच के बाद उठाया गया।
  - India, Indonesia and Laos were targeted in this investigation.
  - इस जांच में भारत, इंडोनेशिया और लाओस को निशाना बनाया गया।
- 

## **2 Why was the duty imposed? / शुल्क क्यों लगाया गया?**

- U.S. firms alleged Indian companies received unfair subsidies harming American manufacturers.
- अमेरिकी कंपनियों ने आरोप लगाया कि भारतीय कंपनियों को अनुचित सब्सिडी मिली जिससे अमेरिकी उद्योग प्रभावित हुआ।
- The probe was initiated after a complaint by the Alliance for American Solar Manufacturing and Trade.
- जांच की शुरुआत अमेरिकी सोलर निर्माण गठबंधन की शिकायत पर हुई।
- The move is linked to WTO subsidy rules and anti-dumping norms.
- यह कदम WTO के सब्सिडी और एंटी-डंपिंग नियमों से जुड़ा है।

### 3 Trade & Export Data / व्यापार व निर्यात आँकड़े

- In FY23, India exported about **\$1 billion worth of photovoltaics** to the U.S.
  - वित्त वर्ष 2023 में भारत ने लगभग **1 अरब डॉलर** के फोटोवोल्टिक उत्पाद अमेरिका को निर्यात किए।
  - In 2022–23 exports rose to \$1.93 billion.
  - 2022–23 में निर्यात बढ़कर 1.93 अरब डॉलर हुआ।
  - The U.S. is a major export destination for Indian solar manufacturers.
  - अमेरिका भारतीय सोलर निर्यात का प्रमुख गंतव्य है।
- 

### 4 Additional Tariffs Context / अतिरिक्त शुल्क संदर्भ

- Earlier, Trump administration proposed a 15% baseline duty on several imports.
  - पहले ट्रंप प्रशासन ने कई आयातों पर 15% आधार शुल्क प्रस्तावित किया था।
  - Current duties of up to 40% already exist on some solar imports.
  - कुछ सोलर आयातों पर पहले से 40% तक शुल्क लागू है।
  - Final determination in investigation expected in 2026.
  - जांच का अंतिम निर्णय 2026 में अपेक्षित है।
-

Consider the following statements:

1. Countervailing duty is imposed to neutralise subsidies provided by exporting countries.
2. Anti-dumping duty and countervailing duty are identical in purpose.
3. National Solar Mission is a part of India's National Action Plan on Climate Change.

Which of the statements given above are correct?

- A. 1 and 3 only
- B. 1 and 2 only
- C. 2 and 3 only
- D. 1, 2 and 3

A photograph of a yellow stone staircase with arched openings, set against a bright, hazy background. The staircase is made of yellow stone and has several arched openings. The background is a bright, hazy sky.

- B. 2 and 3 only
- C. 1 only
- D. 1, 2 and 3

**DO NOT OPEN THIS TEST BOOKLET UNTIL YOU ARE TOLD TO DO SO**

**T.B.C. : BBSP-O-GST**

**Test Booklet Series**

**Serial No.**

1010806

**TEST BOOKLET**

**B**

**PAPER—I**

**( General Studies )**

**Time Allowed : Two Hours**

**Maximum Marks : 100**

**INSTRUCTIONS**

1. IMMEDIATELY AFTER THE COMMENCEMENT OF THE EXAMINATION, YOU SHOULD CHECK THAT THIS TEST BOOKLET *DOES NOT* HAVE ANY UNPRINTED OR TORN OR MISSING PAGES OR ITEMS, ETC. IF SO, GET IT REPLACED BY A COMPLETE TEST BOOKLET.
2. Please note that it is the candidate's responsibility to encode and fill in the Roll Number and Test Booklet Series A, B, C or D carefully and without any omission or discrepancy at the appropriate places in the OMR Answer Sheet. Any omission/discrepancy will render the Answer Sheet liable for rejection.
3. You have to enter your Roll Number on the Test Booklet in the Box provided alongside. *DO NOT* write *anything else* on the Test Booklet.
4. This Test Booklet contains **120** items (questions). Each item comprises four responses (answers). You will select the response which you want to mark on the Answer Sheet. In case you feel that there is more than one correct response, mark the response which you consider the best. In any case, choose *ONLY ONE* response for each item.
5. You have to mark all your responses *ONLY* on the separate Answer Sheet provided. See directions in the Answer Sheet.
6. *All* items carry equal marks.
7. Before you proceed to mark in the Answer Sheet the response to various items in the Test Booklet, you have to fill in some particulars in the Answer Sheet as per instructions sent to you with your Admission Certificate.
8. After you have completed filling in all your responses on the Answer Sheet and the examination has concluded, you should hand over to the Invigilator *only the Answer Sheet*. You are permitted to take away with you the Test Booklet.
9. Sheets for rough work are appended in the Test Booklet at the end.
10. **Penalty for wrong answers :**

**10.** What is the full form of SIR introduced by the Election Commission of India?

- (a) Special Inclusive Review
- (b) Selective Intensive Revision
- (c) Special Intensive Revision
- (d) Specific Internal Review

**29.** Which one of the following government schemes in India promotes organic farming?

- (a) Paramparagat Krishi Vikas Yojana
- (b) PM Kisan Yojana
- (c) PM Krishi Sinchai Yojana
- (d) Krishi Bhagya Yojana

**31.** Consider the following pairs :

- I. U-WIN : Digitizing vaccination records for pregnant women and children up to 14 years
- II. E-Sanjeevani : World's largest tele-medicine implementation in primary health care
- III. Ayushman Bharat Digital Mission : Provides for compulsory participation of private hospitals in the scheme

How many of the pairs given above are correctly matched?

- (a) One
- (b) Two
- (c) All three
- (d) None

**33.** A bank generated savings credit of ₹1,600 crore in the first round from a savings deposit of ₹2,000 crore. What is the Cash Reserve Ratio fixed by the Central Bank?

- (a) 5%
- (b) 10%
- (c) 20%
- (d) 25%

**34.** In the context of economy, the term 'capital goods' refers to

- (a) any asset
- (b) any durable good that is owned for consumption of households
- (c) any asset that helps increase the income of households
- (d) durable assets which are used to produce goods and services

**35.** With reference to distribution of employment in India for the year 2024–2025, consider the following statements :

- I. Self-employment is a major source of employment for men in rural areas.
- II. Casual wage work is a major source of employment for women.
- III. Proportion of women engaged in self-employment in rural areas is more than that in urban areas.

Which of the statements given above is/are correct?

- (a) I only
- (b) I and III only
- (c) II and III only
- (d) I, II and III

**36.** Consider the following statements about the SANKALP Scheme :

- I. It is a programme of the Ministry of Skill Development and Entrepreneurship with loan assistance from the World Bank.
- II. Quality assurance of skill development programmes is one of the result areas of this scheme.
- III. Inclusion of the marginalized population is not an objective of this scheme.

Which of the statements given above is/are correct?

- (a) I only
- (b) I and II
- (c) II only
- (d) I and III

**38.** Consider the following statements regarding the Deendayal Antyodaya Yojana-National Rural Livelihoods Mission (DAY-NRLM) :

- I. It aims to reduce poverty by enabling poor households to access gainful self-employment and skilled wage employment opportunities.
- II. It assures that at least two members from each rural poor household would be brought under the Self-Help Groups (SHGs) network.
- III. The programme leverages community resources to build institutions and promote livelihoods.

Which of the statements given above is/are correct?

- (a) I only
- (b) I and II
- (c) II and III
- (d) I and III

**37.** According to the World Bank Poverty and Equity Brief (October 2025), 46% of India's poor lived in which of the following States?

- (a) Bihar, Uttar Pradesh, Madhya Pradesh
- (b) Uttar Pradesh, Maharashtra, Madhya Pradesh
- (c) Bihar, Madhya Pradesh, Maharashtra
- (d) Uttar Pradesh, Bihar, Maharashtra

**39.** With reference to the Human Development Report (2023–2024), consider the following countries :

- I. Sri Lanka
- II. Myanmar
- III. Nepal

How many of the above countries are performing better in terms of human development than India?

- (a) One
- (b) Two
- (c) All three
- (d) None

**78.** The 22nd India-ASEAN Summit was held in October 2025 in

- (a) Vientiane
- (b) Kuala Lumpur
- (c) Singapore
- (d) Bangkok

**80.** Consider the following countries :

- I. Ethiopia
- II. Nigeria
- III. Egypt
- IV. UAE

How many of the above are full-time members of BRICS?

- (a) One
- (b) Two
- (c) Three
- (d) All four

**82.** Which one of the following countries is the newest member of NATO?

- (a) Finland
- (b) Sweden
- (c) North Macedonia
- (d) Montenegro

**83.** India's installed solar capacity in 2025 is close to

(a) 70 GW

(b) 90 GW

(c) 130 GW

(d) 200 GW

## What you'll get

- Coverage of all major national and international events from **January 2025 to March 2026**
- **20 high-priority topics** explained in depth so you can handle both factual and analytical questions

### Topics to be Covered:

**1. Government Schemes (Flagship + New Launches)**

**2. Budget & Taxation**

**3. Economic Indicators**

**4. Reports & Indices (India's Rank)**

**5. International Affairs (India + Major Summits)**

**6. Science & Tech**

**7. Environment & Ecology**

**8. Polity & Constitution Updates**

**9. Awards & Honours**

**10. Sports**

**11. Banking & Financial Market**

**12. Defence**

**13. Appointments & Resignations**

**14. Books & Authors**

**15. Important Days & Themes**

**16. Government Committees**

**17. States in News**

**18. India Rankings & Lists**

**19. Sports + Govt Sports Schemes**

**20. Miscellaneous Must-Do**

- All video lectures will be delivered in bilingual format (Hindi + English) to ensure clarity and comfort for every learner.

Thank you 😊
